Chairman's Pen

My dear fellow exporters,

On behalf of Team EEPC India I wish all the members, their staff and family members a Very Happy 2010. As you begin the New Year, the economic scenario is much better than what it was one year back. We do hope that the revival in the developed world will be sustained and this would lead to demand for engineering goods from countries like India.

This year, there are number of important issues that have to be tackled by the Government that will have its implications on the domestic stake holders such as the exporters. The first and foremost is the Goods and Service Tax (GST) that will have significant effect on the indirect taxes sector in the country.

This apart, there is considerable need to reduce Transaction Cost for exporters particularly with respect to making life easier for those units that belong to the tiny and small scale sector. The Council will actively be taking up various issues during the course of the year so that it is possible for us to make life easier for our members.

I wish you all a Very Successful 2010.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Aman Chadha'.

**EEPC India Invites Participation at
Multi Product Trade Delegation to Cote d'Ivoire, Nigeria,
Kenya and Democratic Republic of the Congo
(25th February – 6th March, 2010)**

EEPC India is pleased to organize, with active support of the Indian Missions, a Multi Product Trade Delegation to Cote d'Ivoire, Nigeria, Kenya and Democratic Republic of the Congo from 25th February – 6th March, 2010.

Cote d'Ivoire, formerly Ivory Coast, is a country in West Africa. Cote d'Ivoire economy is largely market-based and relies heavily on agriculture, with smallholder cash crop production being dominant. Cote d'Ivoire, along with Nigeria, accounts for 60 per cent GDP of West Africa. It is the gateway to the West African region for trade and commerce. It is a market where the French and some other European companies have traditionally been in the lead, while retail business is dominated by the Lebanese. Since the present government is not very favourably inclined towards the French, new opportunities have opened up for the Asians during the last five years, which the Chinese have been trying to take advantage of. It would be a good idea for the Indian engineering exporters to meet their counterparts in the country. Petroleum is the main export item of Cote d'Ivoire. Foodstuff, capital equipment, and fuel are the main imports of Cote d'Ivoire. France, Nigeria, Germany, USA, Netherlands, China and Burkina Faso are the overseas trade partners of Cote d'Ivoire.

Nigeria is the largest economy in the West African region. The economy of Nigeria is one of the fastest growing in the world. Nigeria is classified as an emerging market, and is rapidly approaching middle income status, with its abundant supply of resources, well-developed financial, legal, communication, transport sectors and stock exchange (the Nigerian Stock Exchange), which is the second largest in Africa. The country has experienced a merchandise trade surplus over the years. The main exportable items of the country are petroleum and petroleum products, cocoa and rubber. The export partners of the country are United States, Spain, India, France and Italy. The main importable items of the country are machinery, chemicals, transport equipment, manufactured goods, food and live animals. The import partners of the country are United Kingdom, United States, Germany, France and The Netherlands.

Kenya is, one of the industrially developed nations, situated in the East African region. Kenya's economy is market-based, with some state-owned infrastructure enterprises, and maintains a liberalized external trade system. The Government of Kenya has unveiled vision 2030 which is a very ambitious economic blue print. The Ministry of Finance and the Central Bank have undertaken a series of economic measures with the assistance of the World Bank and the International Monetary Fund. Through this programme the government eliminated price controls and import licensing, removed foreign exchange controls, privatized a range of publicly owned companies, reduced the number of civil servants, and introduced conservative fiscal and monetary policies. Kenya's exports are tea, horticultural products, coffee, petroleum products, fish, cement and imports machinery and equipment, metal products & foodstuffs. Uganda, UK, Tanzania, The Netherlands, US, UAE, China, India & Saudi Arabia are the major trading partners of Kenya.

Democratic Republic of the Congo is located in Central Africa. The DR Congo's formal economy is dominated by the mining sector. Minerals account for the vast majority of the DR Congo's exports and represent the single largest source for foreign direct investment (FDI). Copper, cobalt, gold, colton, tin, and zinc are the big metals being mined and produced in the DR Congo. The Government of the DR Congo continues to build on economic reforms initiated in 2001 aimed at stabilizing the macro-economic situation and promoting economic growth. The DR Congo's economy grew by 5.6% in 2006, 6.3% in 2007, and 8% in 2008. The major exports of DR Congo are diamonds, copper, crude oil, coffee, cobalt and major imports are foodstuffs, mining and other machinery, transport equipment and fuels. Belgium, China, US, Finland, Brazil, France, Italy and India are the major trading partners of DR Congo.

Overseas Market Information**Canada****Canadian PM to visit India next month, N-deal on agenda**

The Prime Minister of Canada is expected to finalise a nuclear deal and sign a Foreign Investment Protection and Promotion Agreement that would safeguard investors' rights in the two countries and boost bilateral economic ties. The Prime Minister would also be looking into the prospects of establishing a Canada-India Free Trade Agreement or other measures to help lower trade barriers between Canada and India. Canada has increased activities in the last few years by opening trade offices in the hopes of increasing the relatively low trading relationship of C\$ 2 billion a year.
