

**Council's Activities****Catalogue Show
At
SISTEP 2009, Casablanca, Morocco
(30th September – 3rd October, 2009)****Display your company Catalogues through EEPC India Information Booth**

EEPC India is participating with 8 other member companies at SISTEP 2009 in Casablanca, Morocco scheduled to be held during 30th September – 3rd October, 2009.

EEPC INDIA invites participation from member companies in the "Catalogue Show" at EEPC India Information Booth at SISTEP 2009.

About SISTEP

SISTEP is a major exhibition for subcontracting, procurement and partnership, bringing together suppliers, purchasers and service providers. It is organized by the Federation of Metallurgical, Mechanical, Electrical & Electronic Manufacturers Association (FIMME) of Morocco and National Stock Exchange of Subcontracting & Partnership (BNSTP) of Morocco.

Morocco provides a get-way to the North African and European Union Markets due to geographical proximity and free trade agreements with the EU, the U.S., the Maghreb countries, Saudi Arabia, the UAE, West African Economic and Monetary Union (UEMOA), Turkey, Egypt and Jordan.

Morocco is well positioned as a value creator, with its openness to international partnership and proximity to Euro-Mediterranean countries; it offers very attractive opportunities to develop new markets for industrial subcontracting. India's export of engineering goods to Morocco is US\$ 71 million in 2008-09 (April-January) which is an impressive growth of 65% compared to exports during the same period in the previous year. India's total export to North Africa (Algeria, Libya, Egypt, Morocco and Tunisia) during 2008-09 (April-January) was US\$ 800.2 million. Real business opportunities will be waiting for you in this 8th edition of SISTEP.

EEPC INDIA is organizing an India Pavilion in SISTEP 2009. Participating in the above exhibition will enable Indian companies to further widen their reach in the highly lucrative EU, Middle East and African markets and would provide an excellent opportunity for establishing business relationships with customers from all over the world.

What you need to do?
