**Chairman's Pen**

*My dear fellow exporters,*

*The Union Finance Minister presented the Budget proposal for 2009-10 on Monday, July 06, 2009. There are some measures which EEPC INDIA has been suggesting that the budget has included specifically for exporters. The first relates to our long standing demand to have the Service Tax Refund procedure from a refund base system to exemption based system. In this connection two categories of Service Tax viz. Transport of Goods on by Road and Commission paid by the Foreign Agents have been exempted from the levy on Service Tax. It may be mentioned that there is a problem with the Notification relating to Foreign Agency Commission where even though the Explanatory Memorandum to the Service Tax states that the present cap of 10% on Commission Agency charges have been retained, the Notification mentions that only 1% of the FOB Value will be covered under the exemption system.*

*I have taken up this matter with both the Finance Ministry and Commerce Ministry to rectify the same. Further, with regard to the refund other services, EEPC INDIA has been demanded. The inclusion of Terminal Handling charges be included and the Service Tax Exemption/Refund System. This has now been included and certain simplification of either self specification by Chartered Accountant has been made. We need to see how this process works, though there is a view that the current procedure may be more complex. Further, time limit has also been relaxed as has been demanded by EEPC INDIA.*

*This apart, FBT has also been removed though this may be borne by the employees rather than the employer. Further, the MDA budget has been enhanced and this will help our members to participate in foreign exhibition abroad in a more focused manner. Also, Section 10A and 10B of the Income Tax Act has also been extending for another year and this will benefit a large number of units availing benefits under these two sections.*

*Yours sincerely,*

A handwritten signature in black ink, appearing to read 'Aman Chadha'.

**Brazil: A Vibrant Export Destination for India and the Opportunities in MERCOSUR**

Brazil is the world's **tenth largest economy** at market exchange rates and the ninth largest by purchasing power parity. Economic reforms have given the country new international projection.

With **large and developed agricultural, mining, manufacturing and service sectors**, as well as a large labour pool, Brazilian economy is booming. The country is regarded as one of the groups of four emerging economies called BRIC (Brazil-Russia-India-China). The biggest investment boom in history is under way in Brazil.

**Brazil imported about USD 65546.23 million worth of engineering goods in 2008**, of which only about USD 463 million went from India, indicating a share of only 0.71%. However, this share has substantially increased over the past few years, and India's exports to Brazil are increasing at a rapid pace.

Brazil is a **member of the MERCOSUR trade bloc**, the other members being Argentina, Paraguay and Uruguay. It might be worthwhile to mention here that MERCOSUR is a trade bloc which sources about 80% of its import requirements from outside the bloc. This gives an immense opportunity to countries like India.

**India has signed a Preferential Trading Agreement with MERCOSUR** which is in force since June 1, 2009. MERCOSUR has offered lower-duty access to 450 items from India, of which **170 items are from the engineering sector** (please open this link to get the list of products with their HS Codes : [http://eepcindia.org/memcirculares/mercosur\\_engg\\_150605.pdf](http://eepcindia.org/memcirculares/mercosur_engg_150605.pdf)).

**Why Caxias do Sul?**

Caxias do Sul is situated in the Rio Grande do Sul state of Brazil. This state in Brazil possesses a unique location, as it shares its international boundary with three very important Mercosur economies, viz, Uruguay, Paraguay and Argentina. With the 4th largest GDP in the country and good highway and telecommunications infrastructure, Rio Grande Do Sul benefits from major national and international investments. The State also has substantial contribution in sectors such as metal and mechanical products, agribusiness, chemicals, leather products and furniture, pulp and paper. **Rio Grande do Sul has the distinction of being the fastest growing state economy in Brazil.**

Caxias do Sul is the second largest city in the State, after its capital Porto Alegre, which is only 89 kms away from this city. It also happens to be the most important industrial cluster in the state of Rio Grande do Sul. There are a number of small, medium, large and multinational companies in the city, and it is recognized as an **Entrepreneurial-Exporting Hub of Brazil.**

Below is given a list of major cities nearby Caxias do Sul, and their distances from this city :

**INDEE Brazil 2009**

The “Indiatech” Fair in Sao Paulo, Brazil, which was organised in November 2003 with 87 Indian companies, fetched spot orders worth USD 50 million for the participants. Serious enquiries worth \$25 million were generated in the show. India’s exports of engineering goods, which was at a level of only USD 35 million then, have now reached a level of almost USD 500 million.

EEPC India is pleased to announce its next INDEE – Brazil to be held in Caxias Do Sul in Brazil from 20 to 23 October 2009. The show will be a part of MERCOPAR, a leading Subcontracting and Industrial innovation fair in the entire Latin American region taking place since 1992.

The Mercopar exhibition is being organized by Hannover Fair Sulamerica Ltda, a subsidiary of Deutsche Messe and SEBRAE, an association promoting entrepreneurship in the small and medium industries sector in Brazil. **India, this year, has been given the status of the Feature Country in this exhibition.**

Last year, EEPC India had an information booth in this show, and the response was rather encouraging. A substantial number of enquiries were generated in the fields of hand tools, cutting tools, agricultural implements, mining equipment, castings, forgings, automotive components and so on.
