Chairman's Pen

My dear fellow exporters,

By next Monday, the Union Budget will be presented by the Government and the broad policy direction of this Government will be known. EEPC INDIA along with other Foreign Trade Organisations have made detailed suggestions to the Government with regard to progressive policy measures that are required in this challenging times. We do hope that the Government will come out with a Technology Upgradation Fund Scheme (TUFS) for the engineering sector since that seems to be one of the key ingredients of updating the technology of our small and medium scale units. As you are aware EEPC INDIA has already provided a draft Technology Upgradation Fund Scheme (TUFS) proposal to the Government and we hope that some steps are taken in this direction. It is, of course, quite possible that this initiative may also be left in the Foreign Trade Policy that is expected to come out in August 2009.

This apart, there is major head room for fiscal reforms particularly in terms of doing away with discriminatory taxes like FBT and reforming the Service Tax Refund System.

The European Union is holding a Seminar on Supplies Declaration of Conformity (SDOC) in the European market in New Delhi on June 30 to July 01, 2009 where EEPC INDIA will also be participating. I am glad to learn that some of our members have shown interest in this seminar and will be participated at this symposium.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Aman Chadha'.

Brazil: A Vibrant Export Destination for India and the Opportunities in MERCOSUR

Brazil is the world's **tenth largest economy** at market exchange rates and the ninth largest by purchasing power parity. Economic reforms have given the country new international projection.

With **large and developed agricultural, mining, manufacturing and service sectors**, as well as a large labour pool, Brazilian economy is booming. The country is regarded as one of the groups of four emerging economies called BRIC (Brazil-Russia-India-China). The biggest investment boom in history is under way in Brazil.

Brazil imported about USD 65546.23 million worth of engineering goods in 2008, of which only about USD 463 million went from India, indicating a share of only 0.71%. However, this share has substantially increased over the past few years, and India's exports to Brazil are increasing at a rapid pace.

Brazil is a **member of the MERCOSUR trade bloc**, the other members being Argentina, Paraguay and Uruguay. It might be worthwhile to mention here that MERCOSUR is a trade bloc which sources about 80% of its import requirements from outside the bloc. This gives an immense opportunity to countries like India.

India has signed a Preferential Trading Agreement with MERCOSUR which is in force since June 1, 2009. MERCOSUR has offered lower-duty access to 450 items from India, of which **170 items are from the engineering sector** (please open this link to get the list of products with their HS Codes : http://eepcindia.org/memcirculares/mercosur_engg_150605.pdf).

Why Caxias do Sul?

Caxias do Sul is situated in the Rio Grande do Sul state of Brazil. This state in Brazil possesses a unique location, as it shares its international boundary with three very important Mercosur economies, viz, Uruguay, Paraguay and Argentina. With the 4th largest GDP in the country and good highway and telecommunications infrastructure, Rio Grande Do Sul benefits from major national and international investments. The State also has substantial contribution in sectors such as metal and mechanical products, agribusiness, chemicals, leather products and furniture, pulp and paper. **Rio Grande do Sul has the distinction of being the fastest growing state economy in Brazil.**

Caxias do Sul is the second largest city in the State, after its capital Porto Alegre, which is only 89 kms away from this city. It also happens to be the most important industrial cluster in the state of Rio Grande do Sul. There are a number of small, medium, large and multinational companies in the city, and it is recognized as an **Entrepreneurial-Exporting Hub of Brazil.**

Below is given a list of major cities nearby Caxias do Sul, and their distances from this city :

INDEE Brazil 2009

The “Indiatech” Fair in Sao Paulo, Brazil, which was organised in November 2003 with 87 Indian companies, fetched spot orders worth USD 50 million for the participants. Serious enquiries worth \$25 million were generated in the show. India’s exports of engineering goods, which was at a level of only USD 35 million then, have now reached a level of almost USD 500 million.

EEPC India is pleased to announce its next INDEE – Brazil to be held in Caxias Do Sul in Brazil from 20 to 23 October 2009. The show will be a part of MERCOPAR, a leading Subcontracting and Industrial innovation fair in the entire Latin American region taking place since 1992.

The Mercopar exhibition is being organized by Hannover Fair Sulamerica Ltda, a subsidiary of Deutsche Messe and SEBRAE, an association promoting entrepreneurship in the small and medium industries sector in Brazil. **India, this year, has been given the status of the Feature Country in this exhibition.**

Last year, EEPC India had an information booth in this show, and the response was rather encouraging. A substantial number of enquiries were generated in the fields of hand tools, cutting tools, agricultural implements, mining equipment, castings, forgings, automotive components and so on.

INDIA PAVILION AT MIDEST 2009, PARIS, FRANCE

EEPC INDIA is inviting participation India Pavilion at MIDEST 2009, Paris, France from 17th - 20th November, 2009. Members are requested to register their participation within 30th July, 2009. Details information has already been hosted in our Website (<http://www.eepcindia.org/eventattach/CIR-MIDEST-09-17-201109.pdf>) for information of our members.

Overseas Market Information**Argentina****Bilateral Trade between India Argentina – India**

India exported US\$ 104 million (US\$ 133 million in the same period in 2008) worth of goods to Argentina in the first four months in the year 2009 and imported US\$ 245 million (US\$ 297 million in the same period in 2008) worth of goods from Argentina in the same period. The total bilateral trade between the two countries from January to April 2009 was US\$ 350 million. The trade decreased by about 23% in the first four months as compared to the same period in the last year.

Import restrictions in Argentina

In an official meeting organized by the organization of Commercial representatives of the Embassies in Argentina with Minister of Production Debora Giorgi and the officials of the Ministry, the functionaries clarified the doubts regarding the import restrictions imposed by Argentina in the form of Non-Automatic Import Licences required for imports of certain items. The ministry clarified that the licences are required for only 251 items of imports which is just 3% of the total items of imports of Argentina. They also said the normal procedure for obtaining a licence lasts only 30 days in the case of single licence and 60 days or lesser in case of multiple licences. They also conveyed to the embassies that the importers or the exporters should be encouraged to meet/contact the ministry officials personally to facilitate the process and reduce the time wasted in errors and misunderstandings. The Government clarified that the restrictions are by no means intended to reduce imports from a particular country into Argentina but just to monitor the trade in the time of crisis.

Uruguay :**Bilateral Trade between India – Uruguay**

Indian exports to Uruguay from January to May 2009 were US\$ 13,200 (US\$ 12,400 in the same period in 2008) and the imports from Uruguay in the same period were US\$ 33,000 (US\$ 5000 in the same period in 2008). Total bilateral trade was US\$ 46200 which is 165% more than the last year.
