Chairman's Pen

My dear fellow exporters,

EEPC INDIA members had requested the Council to extend the RBI's Interest Subvention Scheme on Rupee Export Credit to Urban Cooperative Banks. The Interest Subvention Scheme gives a subvention of 2% to many sectors as also MSME manufacturing units. However, so far, the urban cooperative banks were kept out of the loop of the interest subvention scheme.

On receiving representation from our members, EEPIC INDIA took up this issue with the Ministry of Finance, Ministry of Commerce & Industry and the Reserve Bank of India. I met the then Commerce Minister Shri Kamal Nath and the Deputy Chairman of Planning Commission Shri Montek Singh Ahluwalia in late January 2009 to demand two particular extension with respect to the Interest Subvention Scheme :

- (i) the extension of the Scheme to Urban Cooperative Banks; and*
- (ii) to the engineering sector.*

I am glad to inform you that the Reserve Bank of India by its Notification dated June 18, 2009 is accepting our recommendation and those members who are seeking Rupee Export Credit from Urban Cooperation Banks will be given Interest Subvention of 2% for the period June 01, 2009 to September 30, 2009. The Notification is enclosed in this Bulletin and those members who are customers of Urban Cooperative Banks are requested to take copies of RBI Notification and seek interest subvention from their banks from this period.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Aman Chadha'.

Brazil: A Vibrant Export Destination for India and the Opportunities in MERCOSUR

Brazil is the world's **tenth largest economy** at market exchange rates and the ninth largest by purchasing power parity. Economic reforms have given the country new international projection.

With **large and developed agricultural, mining, manufacturing and service sectors**, as well as a large labour pool, Brazilian economy is booming. The country is regarded as one of the groups of four emerging economies called BRIC (Brazil-Russia-India-China). The biggest investment boom in history is under way in Brazil.

Brazil imported about USD 65546.23 million worth of engineering goods in 2008, of which only about USD 463 million went from India, indicating a share of only 0.71%. However, this share has substantially increased over the past few years, and India's exports to Brazil are increasing at a rapid pace.

Brazil is a **member of the MERCOSUR trade bloc**, the other members being Argentina, Paraguay and Uruguay. It might be worthwhile to mention here that MERCOSUR is a trade bloc which sources about 80% of its import requirements from outside the bloc. This gives an immense opportunity to countries like India.

India has signed a Preferential Trading Agreement with MERCOSUR which is in force since June 1, 2009. MERCOSUR has offered lower-duty access to 450 items from India, of which **170 items are from the engineering sector** (please open this link to get the list of products with their HS Codes : http://eepcindia.org/memcirculars/mercosur_engg_150605.pdf).

Why Caxias do Sul?

Caxias do Sul is situated in the Rio Grande do Sul state of Brazil. This state in Brazil possesses a unique location, as it shares its international boundary with three very important Mercosur economies, viz, Uruguay, Paraguay and Argentina. With the 4th largest GDP in the country and good highway and telecommunications infrastructure, Rio Grande Do Sul benefits from major national and international investments. The State also has substantial contribution in sectors such as metal and mechanical products, agribusiness, chemicals, leather products and furniture, pulp and paper. **Rio Grande do Sul has the distinction of being the fastest growing state economy in Brazil.**

Caxias do Sul is the second largest city in the State, after its capital Porto Alegre, which is only 89 kms away from this city. It also happens to be the most important industrial cluster in the state of Rio Grande do Sul. There are a number of small, medium, large and multinational companies in the city, and it is recognized as an **Entrepreneurial-Exporting Hub of Brazil.**

Below is given a list of major cities nearby Caxias do Sul, and their distances from this city :

INDEE Brazil 2009

The “Indiatech” Fair in Sao Paulo, Brazil, which was organised in November 2003 with 87 Indian companies, fetched spot orders worth USD 50 million for the participants. Serious enquiries worth \$25 million were generated in the show. India’s exports of engineering goods, which was at a level of only USD 35 million then, have now reached a level of almost USD 500 million.

EEPC India is pleased to announce its next INDEE – Brazil to be held in Caxias Do Sul in Brazil from 20 to 23 October 2009. The show will be a part of MERCOPAR, a leading Subcontracting and Industrial innovation fair in the entire Latin American region taking place since 1992.

The Mercopar exhibition is being organized by Hannover Fair Sulamerica Ltda, a subsidiary of Deutsche Messe and SEBRAE, an association promoting entrepreneurship in the small and medium industries sector in Brazil. **India, this year, has been given the status of the Feature Country in this exhibition.**

Last year, EEPC India had an information booth in this show, and the response was rather encouraging. A substantial number of enquiries were generated in the fields of hand tools, cutting tools, agricultural implements, mining equipment, castings, forgings, automotive components and so on.
