Chairman's Pen

My dear fellow exporters,

The engineering sector has recorded around 18% growth in the fiscal year 2008-09 indicating that it has been able to withstand the global economic slowdown more than other commodities. However, the data indicates that as the fiscal year ended with March 2008 and the new fiscal year began with April 2009, exports have dropped substantially by as much as 25% on an average indicating that the new order cycle is extremely grim.

While the stimulus packages in the rest of the world is beginning to make some headway and the global financial system seems to be stabilizing in some manner considering the buoyancy in the Indian Stock Market over the month of April and May 2009, the foreign demand for engineering goods is yet to bounce back to the post September 2008 situation. It is in this respect that we do hope that the next budget will take into account some of the suggestions of EEPC INDIA and look at the possibilities of reviving India's manufacturing and the engineering industry.

Yours sincerely,

Council's Activities

EEPC India Invites Participation for India Pavilion at MIDEEST 2009 Paris, France (17 - 20 November, 2009)

MIDEEST is the world's largest show exclusively dedicated to Industrial Subcontracting and business conferencing. It is the sourcing platform for International Suppliers of Industrial Subcontracting. It is a show for the forging of partnerships and monitoring technology, serving manufacturers, component suppliers and assemblers who are looking for face-to-face meetings with providers of solutions in metal working, plastics, electronics and industry services.

MIDEEST 2009 is scheduled to be held from 17th to 20th November, 2009 at Hall No. 6 of the Paris-Nord Villepinte Exhibition Center in Paris, France. This show attracts an average of 2,000 exhibitors every year out of which 39% exhibitors are from countries other than France. Last year the fair was visited by 37,640 visitors, 14% of which came from 54 foreign countries. MIDEEST is organized by Reed Exhibitions, the leading trade show organizer in France.

The export of engineering goods from India to European countries has reached a level of US\$ 8.81 billion in 2007-08 against a value of US\$ 6.73 billion during 2006-07 thereby registering a growth of 30.97%. The last three years trend indicates an average growth of 40.40%. This shows that the Indian engineering goods are regularly finding a favourable place in European market.

EEPC India is organizing an India Pavilion at MIDEEST 2009, Paris which would provide an excellent opportunity for business relationships with customers from all over the world.

Focus Products

The following products/areas would be covered in the exhibition :

- Metal Processing
 - Screw, Cutting, Machining, Special Machines
 - Forging
 - Foundry, Fabrication
 - Industrial Fasteners
 - Metal Cutting
 - Finishing, Surface Treatments, Thermal Treatments
 - Semi-Finished products
- Plastic/Rubber Composite Material Processing
- Electronics/Electricity
- Microtechniques
- Industry Services
 - Engineering, Analysis
 - Design Aid
 - Industrial Design
 - Research & Developments, quality, services
 - Industrial maintenance

**EEPC India Invites Participation for
India Pavilion at EMO Milano 2009
Milan, Italy
(5-10 October 2009)**

EEPC INDIA is proud to announce its participation in this year's EMO being scheduled during 5-10 October 2009 in Milan, Italy.

World's buyers and manufacturers of Machine Tools congregate at EMO, which is held once in two years. The present global export market for Machine Tools sector alone stands approximately at Euro 30 billion.

Visitors looking for Machine Tools and related products from Europe, Middle East and Africa are expected to throng this year's EMO at Milan, Italy. A research paper on Machine Tools forecasts that the Europe, Middle East, and Africa market for Machine Tool equipment alone will steadily increase to more than •34.5 billion by 2011, growing at about 4.5% per year.

EEPC India is organizing an India Pavilion at EMO Milano 2009 which would provide an excellent platform for the Indian metal forming industry to showcase its capability and make inroads in to this huge market through this most prestigious show.

EEPC India invites applications from its members to participate in this most important and largest international exhibition for Metal Forming industries.

Product Category

The following products/areas would be covered in the exhibition :

Machine Tools

- Turning Machines (Lathes)
- Boring Machines
- Machining Centres
- Transfer Machines and unit heads
- Tool Grinding Machines
- Planning, Shaping, Slotting and Broaching Machines
- Screwing and Threading Machines
- Deburring Machines
- Sheet Metal Blanking, Punching Machines
- Sheet Metal Working Cells and Systems
- Presses for Special Applications
- Wire Forming Machines
- Metal Forming (Massive) Machines
- Machines for marking and Engraving
- Parallel Kinematic Machines
- Drilling Machines
- Milling Machines
- Flexible manufacturing Cells and Systems
- Grinding Machines
- Gear Cutting and Finishing Machines
- Sawing and Cutting-off Machines
- Honing, Lapping and Polishing Machines
- Sheet Metal Cutting Machines
- Sheet Metal Forming Machines
- Presses
- Bar, Section and Tube Working Machines
- Machines for the Production of Bolts, Nuts, Screws and Rivets
- Electroerosive and Electrochemical Machining
- Machine Tools for educational purposes
- Micro Machining

Other Machines

- Welding and Gas Cutting Machines
- Machines and systems for use in Surface Technology
- Heat Treatment Equipment
- Rapid Prototyping

Toolings

- Cutting Tools
- Abrasive Tools and products
- Tooling Devices
- Tool Presetters and Tool Balancing
- Dies and Moulds
- Forming Tools
- Hand Held Tools
- Tooling Systems
- Workholding
- Components for Dies and Moulds

Parts, Components, Accessories

- Accessories
- Hydraulic and Pneumatic Components
- Control and Drive Systems
- Equipment for Waste Disposal
- Workshop Equipment
- Mechanical Components
- Electrical and Electronic Equipment for Machine Tools
- Lubrication and Cooling Materials
- Safety and Environment

Manufacturing and Process Automation

- Work piece and tool handling
- Industrial robots
- Software for machines
- Computers and peripherals
- Automation for storage and transportation assembly
- Software for product development
- Software for manufacturing

Metrology

- Measuring Testing
- Quality Control and software
- Image Data Processing

Services

- Services for the workshop
- Services for companies

Brazil: A Vibrant Export Destination for India and the Opportunities in MERCOSUR

Brazil is the world's **tenth largest economy** at market exchange rates and the ninth largest by purchasing power parity. Economic reforms have given the country new international projection.

With **large and developed agricultural, mining, manufacturing and service sectors**, as well as a large labour pool, Brazilian economy is booming. The country is regarded as one of the groups of four emerging economies called BRIC (Brazil-Russia-India-China). The biggest investment boom in history is under way in Brazil.

Brazil imported about USD 65546.23 million worth of engineering goods in 2008, of which only about USD 463 million went from India, indicating a share of only 0.71%. However, this share has substantially increased over the past few years, and India's exports to Brazil are increasing at a rapid pace.

Brazil is a **member of the MERCOSUR trade bloc**, the other members being Argentina, Paraguay and Uruguay. It might be worthwhile to mention here that MERCOSUR is a trade bloc which sources about 80% of its import requirements from outside the bloc. This gives an immense opportunity to countries like India.

India has signed a Preferential Trading Agreement with MERCOSUR which is in force since June 1, 2009. MERCOSUR has offered lower-duty access to 450 items from India, of which **170 items are from the engineering sector** (please open this link to get the list of products with their HS Codes : http://eepcindia.org/memcirculars/mercosur_engg_150605.pdf).

Why Caxias do Sul?

Caxias do Sul is situated in the Rio Grande do Sul state of Brazil. This state in Brazil possesses a unique location, as it shares its international boundary with three very important Mercosur economies, viz, Uruguay, Paraguay and Argentina. With the 4th largest GDP in the country and good highway and telecommunications infrastructure, Rio Grande Do Sul benefits from major national and international investments. The State also has substantial contribution in sectors such as metal and mechanical products, agribusiness, chemicals, leather products and furniture, pulp and paper. **Rio Grande do Sul has the distinction of being the fastest growing state economy in Brazil.**

Caxias do Sul is the second largest city in the State, after its capital Porto Alegre, which is only 89 kms away from this city. It also happens to be the most important industrial cluster in the state of Rio Grande do Sul. There are a number of small, medium, large and multinational companies in the city, and it is recognized as an **Entrepreneurial-Exporting Hub of Brazil.**

Below is given a list of major cities nearby Caxias do Sul, and their distances from this city :

INDEE Brazil 2009

The “Indiatech” Fair in Sao Paulo, Brazil, which was organised in November 2003 with 87 Indian companies, fetched spot orders worth USD 50 million for the participants. Serious enquiries worth \$25 million were generated in the show. India’s exports of engineering goods, which was at a level of only USD 35 million then, have now reached a level of almost USD 500 million.

EEPC India is pleased to announce its next INDEE – Brazil to be held in Caxias Do Sul in Brazil from 20 to 23 October 2009. The show will be a part of MERCOPAR, a leading Subcontracting and Industrial innovation fair in the entire Latin American region taking place since 1992.

The Mercopar exhibition is being organized by Hannover Fair Sulamerica Ltda, a subsidiary of Deutsche Messe and SEBRAE, an association promoting entrepreneurship in the small and medium industries sector in Brazil. **India, this year, has been given the status of the Feature Country in this exhibition.**

Last year, EEPC India had an information booth in this show, and the response was rather encouraging. A substantial number of enquiries were generated in the fields of hand tools, cutting tools, agricultural implements, mining equipment, castings, forgings, automotive components and so on.

Product Sector

Basic metal

- Basic iron and steel*
- Rolled, drawn and folded products of iron and steel*
- Semi-finished products of nickel or nickel alloys*

Fabricated metals products

- Domestic metal products including utensils*
- Hand tools and cutting tools*
- Structural metal products and parts thereof*
- Metal fasteners, springs and miscellaneous articles made from metal wire*

Bearings, gears, gearing and driving elements, and parts thereof

- Ball or roller bearings*
- Transmission shafts and cranks; bearing housings and plain shaft bearings; gears and gearing*

Electrical machinery and apparatus

- Electric accumulators; batteries*
- Electric motors, generators and transformers, and parts thereof*
- Electrical equipment and parts thereof*
- Electricity distribution and control apparatus, and parts thereof*
- Insulated winding wire*

**General purpose machinery, equipment and parts**

Ovens and furnace burners and parts thereof
Pumps, compressors, hydraulic and pneumatic power engines, and valves, and parts thereof
