Chairman's Pen

My dear fellow exporters,

The Government has announced that it has decided to defer the Safeguard Duty which the Director General of Safeguards had recommended to be imposed on imports of certain steel products like HR Coils and Sheets. EEPC INDIA has been of the opinion that the proposed 25% Safeguards Duty was rather high and not in consonance with the prevailing price situation of these products. It may be mentioned that the domestic prices of HR Coils and Sheets are one of the highest in the world barring Brazil. As such, by the imposition of Safeguards Duty, the prices would have further shot up in the domestic market and this would have affected the ability of Indian engineering exporters to compete in world market.

EEPC INDIA believes that the steel majors need to be supported by the Government and a large number of measures have been taken by the Government in this regard and, therefore, the balancing act must be done to ensure that the users of these products are not priced out in the global market.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Aman Chadha'.

(AMAN CHADHA)

Council's Activities**EEPC India invites Participation for India Pavilion at
PAACE Automechanika, Mexico
(15 - 17 July, 2009)**

EEPC INDIA is organizing an India Pavilion at PAACE Automechanika Mexico 2009 which is one of the best automotive shows in Mexico and Latin American countries. This show will be held in conjunction with the International Week of the Automotive Industry and with the support of important industry associations, PAACE Automechanika Mexico has become a growing platform for automotive business in this region.

531 exhibitors from 15 countries participated in the year 2008. PAACE Automechanika Mexico is the ultimate platform for displaying domestic and international products to Mexico and Central America's top automotive buyers and key industry players. In addition to the thousands of products, services and resources available on the exhibit hall floor, PAACE Automechanika Mexico offers valuable education and training, unmatched business solutions, exciting networking events and more.

The fair has proven a record to meet suppliers, manufacturers face to face, see the latest technology trends and identify the future markets conditions. The fair witnessed 18,317 quality visitors in 2008 from 33 countries. APRA - Automotive Parts Remanufacturers Association, MEMA - Motor Equipment Manufacturers Association, SEMA - Specialty Equipment Market Association, and INA – The National Institute of Auto Parts (Instituto Nacional de Autopartes) are some of the key supporters for PAACE Automechanika Mexico.

Automotive Market in Mexico

The Mexican automotive industry is one of the fastest growing sectors in Mexico. Due to its geographic location and large population of over 100 million people, Mexico is well known for its outstanding opportunities in the automotive industry. Mexico is the world's 11th largest automotive producer and is forecasted to rank 5th by 2011.

The auto parts and suppliers industry in Mexico generates approximately 7.5% of the country's GDP. Mexico's automotive production has grown at an astounding rate – approximately ten percent per year over the past three years.

As the Mexican automotive industry experiences tremendous growth, so do the opportunities that exist in the market. Consistent increases in vehicle circulation, parts and accessories imports make Mexico a very lucrative market for business.

Mexico is the 10th largest light vehicle producer in the world and the single largest exporter of auto parts to the US, surpassing Canada and Japan. 90 of the top 100 global auto parts manufacturers have established manufacturing operations in Mexico. From August 2005 to January 2008, 1,776,284 vehicles between 11 and 15 years old and 1,073,654 vehicles 10 years old were imported into Mexico. Mexico is one of the few countries with the largest number of brands participating in its market.

India's Exports to Mexico

In 2007-08, India exported nearly USD 600 million worth of transport equipment, including components, to Mexico. Transport equipment accounted for 16% of total exports from India to Mexico.

Five years back, this figure in 2003-04 was less than USD 300 million. The share of transport equipment in total Indian exports to Mexico was also at a much lower level, only 11%.

This indicates the fast pace at which exports of transport equipment to Mexico from India is growing.

Focus Products

Parts & Systems - Vehicle parts, components and systems of the drive, chassis, body, electrics and electronics groups.

Accessories & Tuning - Vehicle accessories, special equipment, tuning, performance systems, design refinement, tires, wheels, wheel accessories.

Repair & Maintenance - Equipment for vehicle service and repair, bodywork repair and painting, workshop equipment, dealership equipment, waste disposal and recycling.

IT & Management - IT products, insurance, finance, leasing, claims management, vehicle inspection services, dealer management systems, dealership planning and construction, dealership marketing.

Service Station & Car Wash - Service station equipment, car care and car wash.

Venue

Centro Banamex
Mexico City, Mexico

Date

15-17 July, 2009 (3 days)

Participation Charges

One side open built-up booths (minimum 9 sq. mtr.) : US\$ 390 per sq. mtr. or Rs. 20,500/- per sq. mtr.
+ Rs. 2,112/- per sq. mtr. as deposited towards Service Tax. 20% extra for corner stall (subject to availability).

Note : In case Service Tax is not chargeable, the deposit would be returned to participants.

If participants make payments in US Dollars, then Service Tax is not applicable.

Display Booth

Participation charge includes following services:

- Fascia
- Carpeting
- One info counter
- Three chairs
- Three spot lights
- One waste bin

Mode of Payment

Full payment is to be made by Demand Draft/at par Cheque favouring "EEPC INDIA" along with the filled-up Application Form.

Date of Payment

Full payment is to be made along with the **Application Form latest by 15th May, 2009.**

Cancellation of Participation

Request for cancellation of participation will be accepted if EEPC India receives the same in writing on or before **25th May, 2009**. EEPC India shall not entertain any cancellation afterwards. Any cancellation after the due date shall result in forfeiture of the amount already paid on this account.

Selection Criteria

Since limited space is available, selection of participation will be done strictly on *first-come-first-served* basis.

MDA Entitlements

All eligible participants will be entitled to MDA grant under Focus LAC Programme of Ministry of Commerce, Government of India as per the MDA Guidelines effective from April 01, 2006.

Assistance would be permissible on travel expenses by Air in Economy Excursion Class fare and/or charges of built up furnished stall subject to an upper ceiling of Rs. 1,80,000/- (Rupees One Lakh Eighty Thousand only).

Further, eligibility for MDA grant is subject to exporting companies having FOB value of exports up to Rs. 15 crores in the preceding year, having complete 12 months membership with EEPC India with regular filing of returns and fulfilling other conditions, details of which can be obtained from respective Regional Offices of EEPC India.

Interested firms may please send the **Application Form**, duly filled in and signed, along with full Payment **latest by 15th May, 2009** to the respective Regional Offices or to :

EEPC India invites Participation for India Pavilion at Kyiv Technical Trade Show, Kiev, Ukraine

(10-12 June 2009)

Kyiv Technical Trade Show 2009 is directed primarily at meeting the needs of domestic market of Ukraine, retooling of enterprises, introduction of world's leading technologies to domestic producers, the establishment of business contacts and mutually beneficial conclusion of new contracts. The Show will provide a forum for active professional dialogue between producers and clients and wide technology presentation.

Ukraine, which now borders the EU, is one of the largest countries in Europe and its great potential in many industries has yet to be fully realised. Since independence from the former Soviet Union, the pace of economic reform is rapidly increasing. 5% of the world's mineral resources are concentrated in Ukraine and the economy of the country is heavily oriented towards heavy machine building, ferrous and nonferrous metallurgies, electric power generation, machine industry, mining etc. thus indicating a good potential for manufacturers and exporters of related engineering items.

Ukraine is second largest trading partners of India in the CIS region. More than 17 bilateral Agreements have been signed between India and Ukraine to increase bilateral trade and economic cooperation. Under the Focus CIS Policy of the Government of India, economic and commercial activities between the two countries are likely to increase, with Ukraine being one of the seven focus countries. Engineering exports from India to Ukraine have jumped to US\$ 175.24 million in 2007-08. Engineering exports from India to Ukraine were mere US\$ 12.81 million in 2003-04.

The Kyiv Technical Trade Show also includes 5 other specialised exhibitions of machinery and technology including **Wires & Fasteners Ukraine 2009, Non-Ferrous Metals Ukraine 2009, Tubes & Fittings Ukraine 2009, Sheet Metal Ukraine 2009** and **Surface Engineering 2009**.

The event is organised by TDS-Expo Ltd and is staged with the official support of Ministry of Industrial Policy of Ukraine.

EEPC INDIA is organizing an India Pavilion at Kyiv Technical Trade Show 2009 which would provide an excellent opportunity for business relationships with customers from all over the world.

Focus Products

- Metalworking
- Metal Processing
- Welding Technology
- Cutting Tools
- Technologies
- Surface Mount Technology
- Cable Technology
- Cable Manufacturing
- Wire Production
- Wire Processing
- Metalworking Machinery
- Metals
- Foundry Technology
- Tubes
- Tube Manufacturing

Venue

Kyiv Expo Plaza Exhibition Center, Kiev, Ukraine

Date

10 – 12 June, 2009 (3 days)

Participation Charges

One side open built-up booths : Euro 205 per sq. mtr. or Rs. 14,000/- per sq. mtr.
(minimum 9 sq. mtr.) + Rs. 1,442/- per sq. mtr. as deposited towards Service Tax.
20% extra for corner stall (subject to availability).

**Note : In case Service Tax is not chargeable, the deposit would be returned to participants.
If participants make payments in Euros, then Service Tax is not applicable.**

Display Booth

Participation charge includes following services :

- Fascia
- Wall panels
- Two chairs
- One electrical socket
- Carpeting
- One table
- One spot light
- One waste basket

Mode of Payment

Full payment is to be made by Demand Draft/at par Cheque favouring "EEPC INDIA" along with the filled-up Application Form.

Date of Payment

Full payment is to be made along with the **Application Form latest by 15th May, 2009.**

Cancellation of Participation

Request for cancellation of participation will be accepted if EEPC India receives the same in writing on or before **21st May, 2009.** EEPC India shall not entertain any cancellation afterwards. Any cancellation after the due date shall result in forfeiture of the amount already paid on this account.

Selection Criteria

Since limited space is available, selection of participation will be done strictly on *first-come-first served* basis.

MDA Entitlements

All eligible participants will be entitled to MDA grant under Focus CIS Programme of Ministry of Commerce, Government of India as per the MDA Guidelines effective from April 01, 2006.

Assistance would be permissible on travel expenses by Air in Economy Excursion Class fare and/or charges of built up furnished stall subject to an upper ceiling of Rs. 1,50,000/- (Rupees One Lakh Fifty Thousand only).

Further, eligibility for MDA grant is subject to exporting companies having FOB value of exports up to

Rs. 15 crores in the preceding year, having complete 12 months membership with EEPC India with regular filing of returns and fulfilling other conditions, details of which can be obtained from respective Regional Offices of EEPC India.

INDIA PAVILION AT SUBCON 2009, BIRMINGHAM, UK

EEPC INDIA is organising an **India Pavilion at Subcon 2009 to Birmingham, UK** from **9th - 11th June, 2009**. **Members are requested to register their participation within 15th May, 2009**. Details information has already been hosted in our Website (<http://www.eepcindia.org/eventattach/CIR-Subcon-2009-9-110609.pdf>) for information of our members.

Overseas Market Information

UK (United Kingdom)

Synopsis of the Country

Capital	: London
Currency	: Pound Sterling (GBP)
Languages	: English, Welsh, Scottish
Population	: 60943912 (July 2008 est.)
Total Area	: 244820 sq. kms
GDP	: \$2.787 trillion (2008 est.)
GDP Growth Rate	: 1.1% (2008 est.)
GDP Per Capita	: \$40,400 (2008 est.)
Major Exports	: Manufactured goods, fuels, chemicals; food, beverages, tobacco
Exports Value	: \$468.7 billion f.o.b. (2008 est.)
Major Countries of Export	: US, Germany, France, Ireland, Netherlands, Belgium, Spain, Italy
Major Imports	: Manufactured goods, machinery, fuels, foodstuffs
Imports Value	: \$645.7 billion f.o.b. (2008 est.)
Major Countries of Import	: Germany, US, China, Netherlands, France, Belgium, Norway, Italy

The United Kingdom is the world's fifth-largest economy. Since the market reforms instituted by Prime Minister Margaret Thatcher in the 1980s, Britain has experienced steady economic growth, outpacing other large EU economies. The Labor government of Tony Blair promoted an open, global economic outlook and made stability a priority. The Bank of England's independence contributes to monetary stability. The City of London remains one of the world's leading centers of commerce; London financial markets appear to have gained a significant international competitive advantage as a result of implementation in the United States of the Sarbanes-Oxley Act. The U.K. is now the world's top destination for foreign direct investment. As with most other Western European countries, Britain faces demographic challenges. Reform of public services, especially the National Health Service, is necessary but politically sensitive.

Trade Policy

The U.K.'s trade policy is the same as that of other members of the European Union. The common EU weighted average tariff rate was 2.1 percent in 2005. Non-tariff barriers reflected

in EU policy include agricultural and manufacturing subsidies, import restrictions for some goods and services, market access restrictions in some service sectors, non-transparent and restrictive regulations and standards, and inconsistent customs administration across EU members. Ten points were deducted from the U.K.'s trade freedom score to account for non-tariff barriers.

Government Intervention

Total government expenditures, including consumption and transfer payments, are very high. Government spending has risen steadily since the 1990s and in the most recent year equaled 44.6 percent of GDP. Spending restraint is a priority for authorities moving forward. Public debt hovers at 40 percent of GDP.

Foreign Investment

Foreign investors receive the same treatment as domestic businesses, and there are few restrictions on foreign investment. The government rarely blocks foreign acquisitions, but registered companies must have at least one U.K.-resident director. The investment code and bureaucracy are generally transparent and efficient. Residents and non-residents may hold foreign exchange accounts. Payments and proceeds on invisible transactions and current transfers are not subject to restrictions, and profits can be repatriated freely. Foreign investors may purchase land.

Banking & Finance

The U.K.'s financial system is efficient and competitive, offering all forms of financial services. Credit is allocated on market terms. Supervision is prudent, regulations are transparent, and oversight is maintained by an independent institution. There are no state-owned banks, but some government agencies provide grants and financing, and the Post Office provides some personal banking services. The insurance market is the world's third largest. Most large foreign insurers are represented, and many account for significant market shares. The London Stock Exchange is one of the world's largest exchanges.

Property Rights

The overall freedom to conduct a business is strongly protected under the U.K.'s regulatory environment. Starting a business takes 13 days, compared to the world average of 38 days. Obtaining a business license takes less than the world average of 225 days and is not costly. Bankruptcy proceedings are easy and straightforward.

Economic Indicators

Economic forecasts

The Gross Domestic Product registered a sharp decline, mainly due to the international financial crisis that has affected the UK. The country is the 5th global largest economy in terms of importance, and the second in EU. It is the 2nd largest recipient of foreign direct investments in the world. Its economy is highly developed and diversified, with extended services of social protection, providing a high standard of living to most of its residents. The unemployment rate is one of the lowest in Europe. The country still has to face four major challenges: its economic recover, its financial system improving, the public services modernization (transport, education, health, etc.) and the pension system reform. In 2008 Britain showed a sharp decline in growth. In 2009 it will be negative and will bounce back in 2010.

GDP Indicators	2006	2007	2008	2009	2010
GDP (billions USD)	2,435.70	2,804.44	2,787.37e	-	-
GDP (constant prices, annual % change)	2.8	3.0	0.8	-1.1e	0.9

technologies, biotechnology, renewable energies, aircrafts industry and defense. The services sector is the driving force behind the economy. London is Europe's largest financial market place, at par with New York.

Main sectors of industry

Agriculture sector contributes only very few to the GDP but is very productive. Cattle breeding is still the major agricultural activity, despite "mad cow" and "foot and mouth" disease crisis.

Fishing sector is also well developed. UK has considerable mineral resources. Once the world's 10th largest oil producer with huge gas reserves, its production is leveling fast. Groups like BP and Shell are still among the global leaders in the petroleum industry.

Manufacturing industry is not very competitive. The sectors having good potential are information and communication

Breakdown of economic activity by sector	Agriculture	Industry	Services
Value added (annual % change)	-1.7	0.3	3.6
Value added (in % of GDP)	0.9	24.1	75.0

British Pound (GBP) - Average annual exchange rate for 1 USD	0.61	0.55	0.55	0.54	0.50

(Source : World Bank - World Development Indicators)

Foreign trade in figures

The UK is one of the leading trading nations in the world. It is the second largest exporter and the third largest importer of commercial services, and the seventh largest and fourth largest importer of merchandise (Source : WTO, 2007). UK top trade partners are EU, USA and China. In 2008 the UK showed a trade deficit. The balance would remain negative in the coming years.

Investments

Foreign trade indicators	2003	2004	2005	2006	2007

Investing in UK

FDI in figures

The UK is the second largest destination of foreign direct investment (FDI), according to the United Nations Conference on Trade and Development (UNCTAD). In 2008 the stream of IDE was in decline and should follow this tendency during the next years.

One of the realm strengths is that London is the financial capital of Europe. Furthermore, Great Britain possesses a strong currency and is one of the most important European markets. The main weakness of the country is the too important influence of the financial sector in the GDP.

Foreign Direct Investment	2005	2006	2007
FDI inward flow (millions USD)	177,901	148,189	223,966
FDI stock (millions USD)	850,962.7	1,133,437.0	1,347,688.4
Performance Index*, world ranking	47	34	29
Potential Index**, world ranking	3	3	-
Number of Greenfield investments***	633	669	641
FDI inwards (in % of GFCF****)	15.7	47.7	36.2
FDI stock (in % of GDP)	38.1	47.6	49.1

(Source : UNCTAD, World Investment Report)

Note : * The UNCTAD Inward FDI Performance index is based on a ratio of the country's share in global FDI inflows and its share in global GDP. ** The UNCTAD Inward FDI Potential index is based on 12 economic and structural variables such as GDP, foreign trade, FDI, infrastructures, energy use, R&D, education, country risk. *** Green field investments are a form of foreign direct investment where a parent company starts a new venture in a foreign country by constructing new operational facilities from the ground up. **** Gross fixed capital formation (GFCF) measures the value of additions to fixed assets purchased by business, government and households less disposals of fixed assets sold off or scrapped.

Why you should choose UK

Strong points

The World Bank found that it takes 13 days to set up a business in UK, compared to the European average of 32 days. It ranks the UK first in Europe and sixth in the world to operate a business. Favorable environment for foreign investors due to low tax rate. London is the world's leading financial services centre on a number of key performance indicators and was voted top European city by the European Cities Monitor.

Weak points

Bad quality infrastructure. Foreign competition in industrial sectors, crisis in financial sector.

Government measures to motivate or restrict FDI

Once established in the UK, foreign owned companies are treated no differently from UK firms. Within the EU, the British Government is a strong defender of the rights of any British registered company, irrespective of its nationality of ownership.

Bilateral investment conventions signed by the UK

The UK has concluded 106 Bilateral Investment Treaties (BITs) with other countries, of which 94 are in force.

Business hours

Banks open from Monday to Friday, from 9.30 to 15.30. In the City district of London, banks close at 15.00 and some are open on Saturday morning but schedules and services are very variable. Most shops have long opening hours and some supermarkets are even open 24 hours a day until 4pm on a Sunday.

Visa Information

Working Holiday Visa

If you are aged between 17 and 30 you may be eligible for a working holiday visa.

You qualify as a working holidaymaker if you are from :

Antigua and Barbuda, Australia, The Bahamas, Bangladesh, Barbados, Belize, Botswana, Brunei, Darussalam, Canada, Cameroon, Dominica, Fiji, Islands, The Gambia, Ghana, Grenada, Guyana, India, Jamaica, Kenya, Kiribati, Malawi, Malaysia, Maldives, Mauritius, Mozambique, Namibia, Nauru, New Zealand, Nigeria, Pakistan, Papua New Guinea, Saint Christopher and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Seychelles, Sierra Leone, Singapore, Solomon Islands, South Africa, Sri Lanka, Swaziland, Tanzania, United Republic of Tonga, Trinidad and Tobago, Tuvalu, Uganda, Vanuatu, Western Samoa, Zambia, Zimbabwe.

For further details on visa information, please visit at www.ukvisas.gov.uk/en.

Operating a Business in the UK

Setting up a company

Legal business entities

<i>Different types of companies</i>	<i>Number of partners/ shareholders</i>	<i>Maximum and/or minimum capital</i>	<i>Liabilities</i>	<i>Registration fees</i>
Private Limited Company (Ltd)	Minimum 2 partners except for single-member Private limited Company. Maximum 50 partners.	No minimum. In practice, the minimum subscribed is GBP 100. Totality of the capital must be released.	Liability is limited to the amount of capital contributed.	Notary fees: GBP 140; Registration to the Companies House: GBP 30.
Public Limited Company (Plc)	Minimum 2	Minimum GBP 50,000 totally subscribed, obligation to release 25% at the constitution.	Liability is limited to the amount of capital contributed.	Notary fees: GBP 140; Registration to the Companies House: GBP 30.
Partnership	No minimum.	No minimum capital.	Partners' liability is joint and indefinite	Notary fees: GBP 140; Registration to the Companies House: GBP 30.
Limited Partnership	No minimum.	No minimum capital.	Liability is limited.	Notary fees: GBP 140; Registration to the Companies House: GBP 30.
Unlimited Company	No minimum.	No minimum capital.	Partners' liability is joint and several	Notary fees: GBP 140; Registration to the Companies House: GBP 30

Business setup procedures

Status consists of a "Memorandum of Association" and "Articles of Association". Status and capital must be registered with the "Companies Registration Office" where the company is located, which approves the company's registered name and delivers a certificate of compliance. The Companies Registration Office delivers a registration number and a certificate of registration. Once these documents are provided, the company is legally constituted and can start its activity. These procedures take about 6 weeks. As for branches, procedures are shorter since they are limited to an activity declaration with the Register of companies, within one month after the activity starts.

TAXES – ACCOUNTING

Tax rate for foreign companies

The UK has a low-tax, low-allowance system of taxation and the government believes it is important to maintain a competitive tax system.

A UK-resident company is subject to corporation tax on its worldwide profits with credit given for most overseas taxes. A non-UK-resident company is subject to corporation tax only in respect of the profits of its PE in the UK and chargeable gains on assets used or held for the purpose of the trade or PE. If a non-resident company carries on an investment activity in respect of UK sources of income, it will be subject to income tax. A company is UK tax resident if it is incorporated in the UK or, if not incorporated in the UK, if its place of central management and control is in the UK.

Capital gains taxation

In the United Kingdom, for companies, capital gains are subject to tax at the marginal rate of corporation tax.

Main allowable deductions and tax credit

Companies may deduct from gross trading profits all expenditure that is wholly and exclusively laid out for the purposes of the trade. Payments of indirect taxes are often deductible, as are most charitable contributions. Complicated

provisions apply to deductions for certain employee share and share option schemes that, in general, do not follow the accounting treatment.

Other corporate taxes

National Insurance Contributions (NIC)
Licenses for motor vehicles
Municipal property tax (rates)

Tax year

The fiscal year begins on April 5th and ends on April 4th of the next year.

Reaching the consumers

Consumer behavior

Consumers respond well to advertising and will buy if they see an advantage such as price, quality, superior design, branding or environmental benefits. After-sales service is important as consumers do not hesitate to complain and defend their rights.

Consumer profile and purchasing power

The UK has a growing population, which has increased faster in recent years. The UK population is ageing but not as fast as the populations of many other EU25 countries. In mid-2006, the average age was 39 years, an increase on 1971 when it was 34,1 years. Approximately one in five people in the UK were then aged under 16 and one in six people were aged 65 or over. With a stable, service-focused economy, high employment and long working hours, consumer income and expenditure has been rising in recent years. With the so-called 'credit crunch', this is now slowing down.

The gap between 'have' and 'have not' is also widening. Therefore, the country presents a contrasted picture. This is illustrated in many ways: for example, while the country is highly urbanized, it places a high value on country living. Consumer loyalty has weakened due to increased mobility and easy accessibility to product information. Thus, consumers are increasingly shopping around for the best deals and stores offer loyalty schemes to keep their custom.

Market access Procedures

Non tariff barriers

In accordance with its European Union membership, United Kingdom applies the European Union (EU) rules that are in force in all European Union countries. While the EU has a rather liberal foreign trade policy, there is a certain number of restrictions, especially on farm products, following the implementation of the CAP (Common Agricultural Policy): the application of compensations on import and export of

farm products aimed at favouring the development of agriculture within the EU, implies a certain number of control and regulation systems for the goods entering the EU territory.

Moreover, for sanitary reasons, regarding Genetically Modified Organisms (after being allowed in the European territory), their presence should be systematically specified on packaging. The beef cattle bred on hormones is also forbidden to import.

The BSE crisis (often called the "mad cow disease") urged the European Authorities to strengthen the phytosanitary measures to make sure of the quality of meats entering and circulating in the EU territory. The principle of precaution is now widespread: in case of doubt, the import is prohibited until proof is made of the non-harmfulness of products.

Customs duties and taxes on imports

The average rate effectively applied to manufactured goods, minerals and metals in EU 15, as evaluated by UNCTAD was 1.44% in 2006. The duties for non-European countries are relatively low, especially for manufactured goods (4.2% on average for the general rate). It is one of the lowest in the world.

Customs classification

The Combined Nomenclature of the European Community (EC) integrates the HS nomenclature and supplements it with its own subheadings with an eight digit code number and its own Legal Notes created for Community purposes.

Import procedures

When introducing goods into United Kingdom, exporters shall fill in an intrastate declaration. An individual valuation declaration should normally accompany the import entry for goods liable to customs duty where the value of the goods exceeds £6,000. However, if you regularly import dutiable goods, you can save time by completing and registering a general valuation statement.

The case of samples

It is possible to import goods deemed to be of negligible value, such as commercial samples, free of duty and VAT.

Organizing Goods Transport

Main useful means

97% of the British external trade volume is handled by sea transport: it consists in about 600 million tons a year. There are hundreds of ports well-equipped for goods transportation. The most important are London, Plymouth, Southampton, Aberdeen, Liverpool, Felixstowe and Dover. England, Scotland, and Wales hold more than 80 ports as members

in the British Ports Association, whose aim is to represent and protect its members from the market turmoil and to integrate European and international policies. The domestic connections are regularly ensured by domestic companies like British Midlands, Air UK/KLM, Easyjet and British Airways.

Roads are dense and effective. United Kingdom is a powerful market of the European road transport and since the market was liberalised on the European level, this sector has undergone strong upheavals. The government, through the Department of Transport, has called on the private sector to finance the creation, financing and construction of new roads, and a toll-system on highways will be the next step.

Various plans of improvement of the railway infrastructure such as the modernisation of tracks in West Midlands, a high speed connection between South and North as well as a project joining the East and the West are under study.

Since December 1994, Great Britain has been connected with the European continent by the Channel, exploited by Eurotunnel company and the train Eurostar (Eurotunnel).

Important Notice

TARIFF AUTHORITY FOR MAJOR PORTS

NO. TAMP/45/2005-KOPT**Mumbai, 9 April, 2009**

NOTIFICATION

In exercise of the powers conferred by Section 48, 49 and 50 of the Major Port Trusts Act, 1963 (38 of 1963), the Tariff Authority for Major Ports hereby extends the validity of the existing Scale of Rates at Kolkata Port Trust beyond 31 March 2009, as in the Order appended hereto.

Tariff Authority for Major Ports Case No. TAMP/45/2005 - KOPT

Kolkata Port Trust**Applicant**

ORDER

(Passed on this 27th day of March 2009)

This Authority had passed an Order on 29 December 2006 disposing of the proposal from the Kolkata Port Trust (KOPT) for general revision of its Scale of Rates (SOR). This Order was notified in the Gazette of India on 6 February 2007 vide Gazette No. 34. The revised Scale of Rates has come into effect from 8 March 2007 after expiry of 30 days from the notification of the Order with a validity period upto 31 March 2009.

- 2.1 Clause 3.1.2. of the guidelines of March 2005 requires the major ports to forward their proposal for review of the existing tariff at least 3 months before expiry of their validity.
- 2.2 Paragraph 5(i)(b) of Order dated 30 September 2008 passed by this Authority notifying the refinement of certain areas of existing approach / practice followed in tariff setting exercise of major port trusts and private terminals operating thereat stipulates that the request for extension of validity of the tariff will not be entertained unless sufficient justifiable reasons are advanced for not filing tariff proposal in time. Even in exceptional cases where such requests are entertained by this Authority, an ad-hoc reduction in the existing rates will be effected for the extended period which in any case cannot exceed 3 months. Grant of extension will also be subject to the condition that additional surplus, if any, accrued during the extended period would be fully set off in the next tariff revision.
- 3.1 When reminded in this regard since the KOPT did not file its proposal for review of its Scale of Rates by the stipulated period, the KOPT vide its letter dated 5 February 2009 has responded explaining the difficulties encountered by it in formulation of its proposal. The main points made by KOPT are summarized below :
 - (i) KOPT has already taken up the exercise of submission of its proposal for general revision of its Scale of Rates before the Authority. However, it is felt necessary to review the projection of cargo throughput and estimation of revenue for the years 2009-10 to 2011-12 mainly because of world-wide economic recession.
Review of cargo throughput for three months period October 2008 to December 2008 (after start of recession in September 2008) has shown a negative growth. Cargo throughput has fallen by 1 million tonnes during the said period of three months as compared to the corresponding period of last year. Container traffic for the same period also shows a negative growth.

- (ii) Crude traffic is a major source of revenue for KOPT. Crude is being handled through pipe line from Paradip from December 2008. It would be difficult to envisage immediately the likely reduction in the quantum of POL traffic.
 - (iii) Revision of Pay & Allowances and Pension of Port and Dock Employees is already due and likely to be announced shortly. This will result in significant increase in cost. Therefore, it will have a material impact on the tariff.
 - (iv) KOPT would like to review its actual financial position for the year 2008-09 before submission of its proposal to the Authority.
- 3.2 The KOPT has requested this Authority to permit it to file its proposal for general revision of Scale of Rates by 30 June 2009 and extend the validity of its existing Scale of Rates for 6 months without effecting any reduction in the existing rates.
4. Considering the position that the KOPT is encountering difficulties to estimate traffic for the reasons which are beyond its control and taking into account the position reported by KOPT that it wants to review the actual financial position of the port for the year 2008-09 before finalizing its proposal for general revision of tariff, this Authority extends the validity of the existing Scale of Rates of KOPT till 30 September 2009 with a direction to the KOPT to file its proposal for general revision of its Scale of Rates latest by 30 June 2009, as agreed by it.
5. Surplus over and above the admissible cost and permissible return accruing for the period after 1 April 2009 will be set-off fully, in the tariff to be fixed for the next cycle.

Ref. No. DEA/AI DBK-2009/IF-8

April 27, 2009

Sub : All India Drawback Clearance Month – Reg.

Dear Mr. Vimal Kirti,

This is in continuation to the communication dated 17th instant by Shri S.P. Agarwal, DEA President, on the above subject. DEA takes pride and pleasure in organizing such Drives for the benefit of the Trade.

Drawback Clearance Month (01st May to 31st May 2009) being one such drive and is repeated every year. The Fellow Exporters present at the inauguration occasion hi-lighted some of the serious problems in getting drawback refunded from the Department.

Shri P.C. Jha, Chairman, CBEC assured full cooperation & help from the Department in making this Drive a success and assured to clear the back log as far as possible.

DEA in addition to the normal clearance would focus on the piled up **E.G.M. ERROR** cases and to concentrate on this, it is requested that a separate format be advised to be filled for EGM error cases and as usual a separate Format for each Port be filled-in to facilitate onward submission to the different Ports concerned. That means there would be two formats for each port – one for EGM error and second for other cases.

The Formats duly completed be sent **in-quadruplicate** to the DEA Head Office OR to the Vice President's Office (address given above); OR to 'May I Help You' Counter at Pragati Bhawan, Pragati Maidan, Reception Counter No.2, Entry from Gate No.3, Mathura Road, New Delhi.

We assure you, that we will do our utmost to get the exporting community all Drawback Payments expeditiously. PLEASE CIRCULATE ABOVE COMMUNICATION TO YOUR MEMBERS TO ENABLE TAKE MAXIMUM ADVANTAGE.

With kind regards,

Yours faithfully,
