

Chairman's Pen

My dear fellow exporters,

EEPC India has made a large number of recommendations to the Government with regard to the Pre-Budget suggestions. We have requested for an Export Market Development Fund, procedural simplification of tax refunds particularly excise, timely payment of Drawback, issues relating to Inverting Duty Structure, among others.

We hope that the new Government will take positive steps to revive the industrial production and give a further boost to exports for the country.

Yours sincerely,

Anupam Shah
