Chairman's Pen

My dear fellow exporters,

The 53rd Annual General Meeting of the Council will be held on November 14, 2008 at the EEPC India Head Office, Kolkata. On this occasion a Panel discussion on the "Impact of Global Financial Crisis on Exporters" will also be organized where three eminent experts will be discussing the ramification of the financial crisis on the exporting community.

At the conclusion of the AGM, I will step down as Chairman of the Council and Chairman elect Shri Aman Chadha will become the 13th Chairman of this great institution.

The last four years as Chairman of the Council has been the most challenging assignment for me. During this period of time, India's engineering export grew by a little over US\$ 14 billion to US\$ 33 billion as of March 2008. There have been many challenges as well as opportunities during these four years and the Council and its members have supported me in fulfilling my responsibilities of this Council. I take immense pride in the growth of the engineering exporters and efforts made by the Council to promote our goods in different parts of the world. For instance, we just come back from 20th INDEE held in Shanghai, China where 50 companies displayed their goods and were able to witness the transformation taking place in the Chinese engineering industry.

The immediate future has many challenges before our members. The impact of global financial crisis will have an adverse impact on our member-exporters and we would all need to work together with our new Chairman in order to meet the challenges facing our community. The Council is taking a number of steps in terms of policy measures which we hope the Government will soon announce and this will help in meeting the challenges of the immediate future. In the long run, our members will have to move into higher value added products, enhance productivity and remain cost competitive to meet the demands of the world market.

Let me assure you that I will continue to be associated with the Council and the new team under the Chairman Shri Aman Chadha will have my fullest support in carrying forward this great institution.

I may also state that the new DEPB Rates have been announced with effect from November 05, 2008 and these rates have been lowered by 1-2%. This is indeed unfortunate in view of the challenges facing the engineering exporting community and we will be making a representation to the Government to enhance the rate as well.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Rakesh Shah'.

EEPC India is organizing an India Pavilion at **TECMA Show 2009** to be held at Mexico City, Mexico during 10 - 13 March, 2009.

TECMA Show 2009 will bring together Manufacturers, Distributors and Trade Professionals of all kinds of industries. There is a tremendous flow of serious trade visitors at this Exposition. TECMA is the only show in Mexico which specializes in Machine Tool technology related equipment and peripherals. TECMA 2009 will be the 13th edition of the largest show in Mexico. More than 200 exhibiting companies and 500 trade names will occupy over 21,600 sq. mtr. of exhibit space at the Expo Santa Fe Complex at Mexico City. TECMA attracts over 12,000 Buyers and Sellers. Economy and Indo-Mexico Trade

Mexico has a free market economy. It contains a mixture of modern and outmoded industry and agriculture, increasingly dominated by the private sector. Recent administrations have expanded competition in seaports, railroads, telecommunications, electricity generation, natural gas distribution, and airports. Per capita income of this country is one-fourth that of the US. Mexico's real GDP grew by 4.8% in 2006 and by 3.3% in 2007. As of March 2008, Moody's, Standard & Poor's, and Fitch Ratings had all issued investment-grade ratings for Mexico's sovereign debt.

Mexico's trade regime is among the most open in the world. It has 12 free trade agreements with over 40 countries including, Guatemala, Honduras, El Salvador, the European Free Trade Area, and Japan, putting more than 90% of trade under free trade agreements.

The Indian exports of engineering goods to Mexico during 2006-07 were US\$ 185.52 million, and reached US\$ 188.65 million in 2007-08. Major items of exports from India include transport equipment, electrical and non-electrical machineries, iron, steel and articles thereof, various instruments and products of base metals.

In May 2007, India and Mexico signed a MoU on Bilateral High Level Group on Trade, Investment and Economic Cooperation. The objective of this MoU includes promotion of economic and trade relations between the two countries; facilitating better access to their respective markets and avoid imposition of new barriers to trade and investment; creation of bilateral consultative mechanism to include trade and economic cooperation.

3. The value cap, wherever existing, shall be with reference to the FOB value of exports. The DEPB rates shall be applied on the FOB value or value cap whichever is lower. For example, if the FOB value is Rs. 500/- per piece, and the value cap is Rs. 300/- per piece, the DEPB rate shall be applied on Rs. 300/-.

4. Wherever any specific rate exists for a particular item under DEPB rate list as given in this book, the items shall not be covered under any generic description of the DEPB rate list.
5. The DEPB rate aims to neutralize the incidence of duty on the inputs used in the export product. Therefore, the DEPB rates, as given in this book refer to normally tradable/exportable product. Items such as Gold Nibs, Gold Pen, Gold watches etc. though covered under the generic description of writing instructions, components of writing instruments and watches are thus not eligible for benefit under the DEPB scheme.

9. The DEPB rate for formulation consisting of more than one bulk drug would be calculated as per provisions of Policy Circular No.20 dated 31st July, 2000.
10. Wherever the export of resultant product in completely built form is allowed under DEPB, the CKD/SKD export of such product shall also be allowed under DEPB.
11. DEPB benefit would also be admissible on the export of composite product including assembled product having more than one constituent items for which DEPB rates are individually fixed. In such cases, the DEPB entitlement would be restricted to the lowest of the rate applicable to the constituent items, ignoring the rate of the constituent item(s) having weight less than 5% of the total net weight of such product. However, no DEPB benefit would be admissible on the export of such product, if constituent item(s) is weighing more than 5% of the total net weight (of the product) and does not have any DEPB rate fixed.

The exporters shall declare in the shipping bill the following details also for claiming DEPB benefit on the export of such product :

- i. Description of the composite product including the assembled product, alongwith its total net weight.
- ii. Description of all the constitute item(s) of such products which attract a DEPB rate with their respective DEPB Nos. and their credit rate alongwith total weight of such constituent (s).
- iii. Description and combined total weight of those constituent item(s) which have no DEPB rate in the schedule.

(Explanatory Note) :

In case (iii) above is more than 5% of total weight given in (i), no DEPB on the composite product would be admissible.
