My dear fellow exporters,

As you are aware that the Government has constituted the Second Task Force on Transaction Cost in exports under the Chairmanship of DGFT, Ministry of Commerce and Industry. The last meeting of the Second Task Force on Transaction Cost was held on August 12, 2013 in New Delhi. A power point presentation was made by EEPC India relating to issues that are causing avoidable transaction cost to the exporters at this meeting. The presentation was very much appreciated by the DGFT. The full presentation is available on the member section of the Council's website (www.eepcindia.org) for information of the members.

Yours sincerely,

Council's Activities

EEPC India Invites Participation for International Technical Fair 2013, Plovdiv, Bulgaria (30 September - 05 October 2013)

The International Technical Fair (ITF) is the most renowned Bulgarian forum of investment goods and technologies in southeastern Europe. The International Technical Fair gives an opportunity to world's leading companies in machine building, automobiles, transport, electronics, electrical engineering, construction, power engineering, information technologies, software products, ecology, etc. to showcase their strength in this important fair.

The 69th edition of The International Technical Fair (ITF) will be held in Plovdiv fairgrounds which is a modern exhibition venue, designed to display all kinds of exhibits, spread on an area of 352,000 sqm. The exhibition space totals approx. 159,100 sqm, the indoor area is 64,500 sqm, while the outdoor area amounts to 94,600 sqm.

International Technical Fair (ITF) which is an annual event is the ideal platform to promote products and services and comprises of 10 concurrent events focusing on different sectors of manufacturing and processing industry.

Over 1,250 (752 direct exhibitors and 505 represented companies) from 43 countries participated in ITF 2012. There were 15 country pavilions from Argentina, Austria, Belgium, Chinese Taipei, Czech Republic, Greece, Hungary, Iraq, Italy, Poland, Romania, Russian Federation, Slovakia, Turkey and the UK.

The fair successfully attracted over 40,000 trade visitors including from outside Bulgaria- viz Albania, Algeria, Armenia, Austria, Azerbaijan, Belarus, Belgium, Bosnia and Herzegovina, Croatia, Cyprus, Czech Republic, Denmark, France, Germany, Greece, Hungary, Kazakhstan, Kosovo, Libya, Malta, Moldova, Monte Negro, the Netherlands, Norway, Poland, Romania, Russian Federation, Saudi Arabia, Serbia, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey and Ukraine.

Bulgaria

Bulgaria has been included in the Focus Market Scheme of the Foreign Trade Policy with effect from January 2013 to increase exports to that country given the export potential. Five years after joining the European Union (EU), Bulgaria offers tremendous investments and business opportunities with second-lowest government debt in the European Union (17.0% of GDP) and one of the lowest budget deficits (2.1%) as of 2011.

The country now enjoys political stability; Bulgaria has the most favourable tax regime in Europe. Corporate income tax rate is 10%, the lowest in the EU together with Cyprus. Personal income tax is 10%, flat rate. Industries in high-unemployment areas are granted 0% tax rate. There is a 2-year VAT exemption for imports of equipment for investment projects over Euro 5 million, creating good job opportunities.

Bulgaria is expected to grow on an average of 1.3% in the coming years. This is relatively low compared to the average of other Central and Eastern European countries and also relatively low compared to the global average of 3.7%. Because of its own economic growth and that of its main trading partners, Bulgaria's exports are expected to grow 12% annually to US\$56 bn in 2017, making Bulgaria one of the larger among the exporting countries worldwide. Similarly, import demand will grow with an average of 10% per year to US\$57 bn in 2017, meaning that Bulgaria will take the 52nd position on the global list of largest importers. By 2017, Bulgaria will mainly import fuels, office telecom & electrical equipment and ores & metals, which together account for 38% of total imports of Bulgaria. Similarly, Bulgaria's exports will mainly consist of ores & metals, basic food and textiles (including fibres, yarn and products). Together these products will represent 51% of total exports in 2017.

The Bulgarian Government introduced the lowest tax rates in the region – ten per cent rate both on personal income and on corporate income, which contributed to strong foreign investment inflows.

Located at the heart of the Balkans, Bulgaria is a strategic logistics hub and provides excellent launching pad for sales into the European Union, Russia, Turkey and the Middle East.
