

India Pavilion at Hannover Fair Catalogue Show (21st - 25th April, 2008)

Hannover Fair is the world's leading technology event. It is the leading showplace for all sectors of industry – in particular mechanical and plant engineering, automotive sectors, electrical engineering and electronics. It is the conglomeration of eleven high profile trade shows under one roof. It offers a unique opportunity to establish contacts with many business leaders and unlock new sources of business potential.

Engineering Export Promotion Council (EEPC) is organising an **India Pavilion** in the **Subcontracting** and **Energy** sector of **Hannover Fair 2008**. **Subcontracting** sector covers materials components and system for mechanical engineering, the automotive industry and plant industry. **Energy** sector is the leading trade fair for conventional power generation, transmission and distribution. The Council has booked nearly 700 sqm of space in this show, and around 60 Indian companies are participating through the Council.

The response has been truly overwhelming, and requests from many members could not be honoured since the area taken by the Council got sold very quickly. In view of this, the Council has thought of giving an opportunity to the members - who either could not afford to take part in the show or could not get a space – to showcase their catalogues in this most prestigious technology show.

Focus Products

Subcontracting Sector

- Castings
- Solid forming
- Non-cut metal parts
- Machine-cut parts
- Automotive components
- Sub-assemblies and metal structures
- Tool and mould making
- Fastenings, locks and fittings
- Plastic parts and rubber processing
- Production and assembly services
- Contract work
- Engineering services

Energy Sector

- Cabling
- Transformers
- Switchgear
- Power supplies
- Instrumentation
- Network management
- Systems engineering
- Components

Venue

Hall Nos. 3 & 4 of Subcontracting Sector

Hall Nos. 12 of Energy Sector
