

India Pavilion at Pumps & Systems Asia 2008, Singapore (July 02 - 04, 2008)

Pumps & Systems Asia 2008 (The 9th international exhibition on pumps and related systems in Asia) is the leading Industrial Show for Pumps, Valves, Compressors and Systems in South East Asia. It is a holistic platform for the engineering industry co-locating manufacturers of pumps, valves, fittings, piping systems and compressors. It will provide exhibitors with the finest range of facilities and amenities to display and demonstrate their product range of the latest, innovative manufacturing technology, plus a whole spectrum of relevant information, offering maximum exposure before the largest gathering of interested visitors in the whole ASEAN Region.

India's trade with the ASEAN Region dates back to time immemorial. The Region is one of India's major trading partners. India's exports to ASEAN Region have grown from US\$ 4.62 billion in 2002-03 to US\$ 12.61 billion in 2006-07. In the engineering sector India's exports have grown from US\$ 297.65 million in 2002-03 to US\$ 2853.69 million in 2006-07 showing a growth of 858.74% in a span of five years, though India's share in total extra-block imports of the Region is still miniscule. This shows that still much potential exists there. It will therefore, be a right time for Indian engineering industry to showcase their capabilities in order to get a substantial share of the ASEAN market.

Engineering Export Promotion Council (EEPC) is organizing an India Pavilion at Pumps & Systems Asia 2008 which would provide an excellent opportunity for business relationships with customers from all over the world.
