Chairman's Pen

My dear fellow exporters,

The Director General of Foreign Trade, Dr. Anup K. Pujari in a recent meeting with members of the Council observed that the procedure for fixation of SION norms is laborious and takes a long time for such fixation. Moreover, some of the SION norms have been fixed for more than 10 years.

Dr. Pujari felt that this does not reflect dynamism of the Indian engineering industry and has requested for proposal from EEPC India members on how to quickly provide SION norms for Indian engineering exporters. One suggestion that he himself gave was that if the SION norms that had been fixed in some other countries particularly developed countries can become the basis by which any exporter can then apply to the DGFT for quick fixation of SION norms then such a system can be developed in India.

Accordingly, we request you to give your suggestion on new products which require SION fixation and how they can be quickly accepted by DGFT. Also, kindly mention how safeguards can be built to prevent misuse and any other suggestions that you can think of.

Your suggestion in this regard, may please be sent to us by sgupta@eepecindia.net, eepeccho@eepecindia.net latest by February 28, 2013 so that we can take up your suggestion with the DGFT.

Yours sincerely,

(AMAN CHADHA)

Council's Activities

EEPC India Invites Participation for India Pavilion in BIET 2013, Dhaka, Bangladesh (10 – 13 April, 2013)

BIET 2013 (Bangladesh International Industrial Engineering Tradeshow and Symposium) is the 4th International Tradeshow & Symposium for the engineering and industrial industry. The show is jointly organized by ASK Trade & Exhibitions Pvt Ltd, India and Bangladesh Engineering Industry Owners' Association (BEIOA), which is an apex body of Engineering Industry and Entrepreneurs of Bangladesh. The 3rd edition of the exhibition organized in the year 2012 had over 8,600 business visitors. BIET 2013 has a concurrent show "SOLAR POWER Bangladesh", the 3rd International Solar Products & Technology Trade Show which is an important component under the renewable energy sector of the country. BIET 2013 aims to act as a catalyst in exposure of emerging technologies, adaptation of innovative concepts and technical expertise. It will serve as a bridge between the consumers of technology and creators of machinery in helping both to understand each other's needs to upgrade and modernize.

Engineering sector especially light engineering plays a crucial role in the growth of Bangladesh economy. Light engineering sector comprising mainly of SMEs acts as a feeder to key national industries and plays a vital role in the socio-economic development of the country. The Small and Medium Enterprises in Bangladesh contribute up to 25% of national gross domestic product about 40% of gross manufacturing output; 80% of industrial jobs and around 25% of the total labour force of the country.

EEPC India is organizing an **India Pavilion at BIET 2013** scheduled to be held during 10 - 13 April, 2013 at Dhaka, Bangladesh. This will be an excellent platform to update on products, technologies and trends in the relevant industry and sectors. It will, also, provide an excellent networking opportunity – interaction with key decision makers, developing business relations with manufacturers, customers, intermediaries.

EEPC India Invites Participation for India Pavilion at WETEX 2013, Dubai, UAE (15 – 17 April, 2013)

The 15th Water, Energy, Technology and Environment Exhibition (**WETEX**) 2013 supports the objective of sustainable development, and is focusing on various sectors and segments of green technology with a wide variety of displays, seminars and technologies with insights from international experts from around the world.

WETEX will also feature a range of green initiatives, which DEWA and other organizations are committed to, at SmarTech. In support of the UAE strategy for green development, which focuses on the promotion and development of green technologies, SmarTech offers a great opportunity to demonstrate Dubai's commitment to reducing waste and protecting the environment from pollution.

EEPC INDIA is organizing an **India Pavilion at WETEX 2013**. This will provide an excellent opportunity to the Indian exporters to know about the green tech market of Middle east, and forge strong links with the potential buyers of the region.

EEPC India Invites Participation for India Pavilion at Hannover Messe 2013 (8-12 April, 2013)

Hannover Messe is one of the world's leading technology events. It is the leading showplace for all sectors of industry – in particular mechanical and plant engineering, automotive sectors, electrical engineering and electronics. Hannover Messe 2013 is the conglomeration of eleven high profile international trade shows under one roof. It offers a unique opportunity to establish contacts with many business leaders and unlock new sources of business potential.

Following eleven leading trade shows that make up Hannover Messe 2013 will present a unique cross-section of key industrial technologies:

- **Industrial Automation:** Process, Factory and Building Automation Systems and Solutions (Halls 8-9, 11, 14-17)
- **Motion, Drive & Automation:** Electrical and Mechanical Power Transmission and Control Technologies (Halls 15-17, 20-25)
- **Energy:** Renewable and Conventional Power Generation, Power Supply, Transmission, Distribution and Storage (Halls 11-13, 27)
- **Wind:** Wind Generation Technology, Components and Services (Hall 27)
- **MobiliTec:** Hybrid and Electric Powertrain Technologies, Mobile Energy Storage and Alternative Mobility Solutions (Hall 25)
- **Digital Factory:** Integrated Processes and IT Solutions (Hall 7)
- **ComVac:** Compressed Air and Vacuum Technology (Hall 26)
- **Industrial Supply:** Industrial Subcontracting and Lightweight Construction (Halls 4-6)
- **SurfaceTechnology:** Applications-oriented and Solutions-oriented Presentation of Innovative Products and Technologies (Hall 3)
- **IndustrialGreenTec:** Environmental Technology (Hall 6)
- **Research & Technology:** R&D and Technology Transfer (Hall 2)

EEPC INDIA is organizing an **India Pavilion** in the Industrial Supply, Energy, Industrial Automation, MDA sectors in Hannover Messe 2013. **Industrial Supply** - Subcontracting and Lightweight Construction will cover materials components and system for mechanical engineering, the automotive industry and plant industry. **Energy** sector is the leading trade fair for Renewable and Conventional Power Generation, Power Supply, Transmission, Distribution and Storage. **Industrial Automation** creates a platform for all the relevant disciplines - from energy-efficient power transmission to ultra-precise measurement and control systems. **MDA - Motion, Drive & Automation** is the world's number one shop window for power transmission and fluid power.

Focus Products

Industrial Supply - Subcontracting and Lightweight Construction

Materials/Technology know-how

Steel, Metals, Non-Ferrous Metals, Rubber, Plastics, Ceramics, Composites, Special & Hybrid Materials
Development Design and Processes

Non-cut Component Manufacturing : Casting, Solid Forming and Sheet Metal Forming, Machining, Joining/Fastening Techniques, Materials Treatment, Engineering, Design, Industrial Services

Parts, Components & Systems

Semi-finished Products, Systems and Subassemblies, Intermediate and Finished Products

Energy Sector

Power Generation and Supply

Services and technologies from fuel cells to all-inclusive contracting packages and low-cost solutions for energy supply

Transmission and Distribution

Cabling, transformers, switchgear, power supplies, instrumentation, network management, systems engineering and components, transport technologies of oil, gas and water

Date of Payment

Full payment is to be made along with the Application Form latest by **21st February, 2013**.

Cancellation of Participation

Request for cancellation of participation will be accepted if EEPC India receives the same in writing on or before **21st February, 2013**. EEPC India shall not entertain any cancellation afterwards. Any cancellation after the due date shall result in forfeiture of the amount already paid on this account.

Display Booth

There will be in-built display booths of 9/10.5 sq. mtr. each. EEPC India will provide the following:

- Carpeted floor
- One table
- One lockable cabinet
- Three chairs
- One book rack
- Three spot lights
- One plug socket
- One waste basket
- Fascia

Note: If any participant orders for additional furniture/services to Hannover Messe through OBS the cost of the same will have to be borne by the concerned participant.

Selection Criteria

Selection of participants will be done **after receiving full payment strictly on first-come, first-served basis**.

Benefit of the Member-Exporters

EEPC India is organizing this event under the MAI Scheme of Ministry of Commerce & Industry, Government of India. Therefore no MDA grant would be available. The rates mentioned above are subsidized as per MAI Scheme of Government of India.

Participants' Details

In Hannover Messe 2013, EEPC India intends to circulate the details of all the participants in a **CD Format** on a complimentary basis instead of printed Exhibitors' Profiles. The CD will be highly interactive and will be a ready reckoner for the overseas buyers.

Participants are requested to send the following information along with the Application Form in CD or over email to the respective Regional/Sub-Regional Offices with a copy to Head Office (email id: eepcho@eepcindia.net):

- (i) Company Profile (not more than 100 words);
- (ii) Contact Details (as per the Application Form);
- (iii) Logo – pdf or jpg format;
- (iv) E-Brochure – pdf format (within 2 pages); or

EEPC India Invites Participation for India Pavilion at INAPA 2013, Jakarta, Indonesia (26 – 29 March, 2013)

Indonesia and its Economy

Indonesia with 240 million of population is the largest economy in Southeast Asia and also one of the emerging market economies of the world. Indonesia is also the member of G-20 major economies. Domestic consumption is one of the major driving forces behind the country's economic growth. The economic growth slowed considerably during 2007-08. However, like India and China, Indonesia recorded higher growth during the global financial crisis, compared to the other G20 members with GDP 5.5% in 2009.

Indonesia's economy expanded a higher-than-expected 6.4% in the second quarter as robust domestic demand offset a decline in the international appetite for its exports.

The economic expansion came despite signs that the country's commodities exporters are being hit by the global slowdown. Indonesia's exports—which are dominated by natural resources such as coal, palm oil and tin—have been sliding as commodity prices slip and demand from places like China and India have slowed. Indonesia announced last week that it recorded its worst-ever trade gap in June as strong domestic demand boosted imports even as its exports fell.

Auto Market

Auto makers have just recorded their best month ever in Indonesia, selling more than 100,000 passenger cars in July, more than 15% they sold here a year earlier. Indonesia's increasingly affluent middle class was buying new cars.

Indonesia is the 3rd world largest consumers in motor vehicle after China and India. The auto market in Indonesia is still major market in ASEAN with the number of vehicle to reach 20 million units of cars and 50 million units of motorcycles. Indonesia has become centre of production for ASEAN market from several global automobile industries (Volkswagen, Hino, Geely, Toyota, Honda, Daihatsu, etc). Indonesia is predicted to be the largest production of cars in ASEAN by 2011 (about 1 million units of cars per year). Auto market of Indonesia always upbeat, based on police data in 2009 the number of registration of car ownership in Indonesia reached 7.900.407 units and 52.767.093 units of motorcycles but in 2010, vehicle growth in Indonesia has increased until 15% and it is a component of industrial development opportunities in Indonesia.

About INAPA

INAPA is the ASEAN's largest trade fair for automotive parts, accessories, equipment and services. It is a sourcing platform to attract quality buyers from the whole automobile industry chain from car manufacturers, distributors and repair workshops to car care service centres.

It has further proved as the largest international trade show in Southeast Asia for auto parts, accessories and vehicle equipment. INAPA exhibitors also expressed a proven opportunity to boost sales and gain exposure as well as meeting with key decision makers and potential buyers. The show recognized the professional show of choice for buyer in automotive parts, accessories, automotive garage equipment in ASEAN.

INAPA 2013 will continue as the leading ASEAN premier platform for sourcing and procurement experts and professionals who want to create feasible business cases and expand their operation in Region. It is the only available platform for pronouncing your brand's presence in the Indonesia's Booming Automotive Market.

Exhibitors numbering 1000 from 21 countries will be taking part at this Show. The projection of trade visitors is about 50,000 from more than 40 countries all over the world.
