Chairman's Pen

My dear fellow exporters,

Two important panels of the Council (Electric Power Machinery, Switchgear and Controlgear including Cable, Conductors, Cable/Conductor Accessories and Industrial Storage Batteries and Iron and Steel) had a detailed discussion with Shri Sumanta Chaudhuri, Joint Secretary, Department of Commerce, Ministry of Commerce & Industry, Government of India on the impact on the recent measures announced by the Government and their expectation with regard to export in the future.

This apart, a recent problem has cropped up with regard to non-handling of export documents and payments for Sudan which is affecting our ability to export to Sudan. We do hope the Government looks into these issues at the earliest.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Aman Chadha'. The signature is fluid and cursive.

Council's Activities

EEPC India Invites Participation for India Pavilion at WETEX 2013, Dubai, UAE (15 – 17 April, 2013)

The 15th Water, Energy, Technology and Environment Exhibition (**WETEX**) 2013 supports the objective of sustainable development, and is focusing on various sectors and segments of green technology with a wide variety of displays, seminars and technologies with insights from international experts from around the world.

WETEX will also feature a range of green initiatives, which DEWA and other organizations are committed to, at SmarTech. In support of the UAE strategy for green development, which focuses on the promotion and development of green technologies, SmarTech offers a great opportunity to demonstrate Dubai's commitment to reducing waste and protecting the environment from pollution.

EEPC INDIA is organizing an **India Pavilion at WETEX 2013**. This will provide an excellent opportunity to the Indian exporters to know about the green tech market of Middle east, and forge strong links with the potential buyers of the region.

EEPC India Invites Participation for India Pavilion at Hannover Messe 2013 (8-12 April, 2013)

Hannover Messe is one of the world's leading technology events. It is the leading showplace for all sectors of industry – in particular mechanical and plant engineering, automotive sectors, electrical engineering and electronics. Hannover Messe 2013 is the conglomeration of eleven high profile international trade shows under one roof. It offers a unique opportunity to establish contacts with many business leaders and unlock new sources of business potential.

Following eleven leading trade shows that make up Hannover Messe 2013 will present a unique cross-section of key industrial technologies:

- **Industrial Automation:** Process, Factory and Building Automation Systems and Solutions (Halls 8-9, 11, 14-17)
- **Motion, Drive & Automation:** Electrical and Mechanical Power Transmission and Control Technologies (Halls 15-17, 20-25)
- **Energy:** Renewable and Conventional Power Generation, Power Supply, Transmission, Distribution and Storage (Halls 11-13, 27)
- **Wind:** Wind Generation Technology, Components and Services (Hall 27)
- **MobiliTec:** Hybrid and Electric Powertrain Technologies, Mobile Energy Storage and Alternative Mobility Solutions (Hall 25)
- **Digital Factory:** Integrated Processes and IT Solutions (Hall 7)
- **ComVac:** Compressed Air and Vacuum Technology (Hall 26)
- **Industrial Supply:** Industrial Subcontracting and Lightweight Construction (Halls 4-6)
- **SurfaceTechnology:** Applications-oriented and Solutions-oriented Presentation of Innovative Products and Technologies (Hall 3)
- **IndustrialGreenTec:** Environmental Technology (Hall 6)
- **Research & Technology:** R&D and Technology Transfer (Hall 2)

EEPC INDIA is organizing an **India Pavilion** in the Industrial Supply, Energy, Industrial Automation, MDA sectors in Hannover Messe 2013. **Industrial Supply** - Subcontracting and Lightweight Construction will cover materials components and system for mechanical engineering, the automotive industry and plant industry. **Energy** sector is the leading trade fair for Renewable and Conventional Power Generation, Power Supply, Transmission, Distribution and Storage. **Industrial Automation** creates a platform for all the relevant disciplines - from energy-efficient power transmission to ultra-precise measurement and control systems. **MDA - Motion, Drive & Automation** is the world's number one shop window for power transmission and fluid power.

Focus Products

Industrial Supply - Subcontracting and Lightweight Construction

Materials/Technology know-how

Steel, Metals, Non-Ferrous Metals, Rubber, Plastics, Ceramics, Composites, Special & Hybrid Materials
Development Design and Processes

Non-cut Component Manufacturing : Casting, Solid Forming and Sheet Metal Forming, Machining, Joining/Fastening Techniques, Materials Treatment, Engineering, Design, Industrial Services

Parts, Components & Systems

Semi-finished Products, Systems and Subassemblies, Intermediate and Finished Products

Energy Sector

Power Generation and Supply

Services and technologies from fuel cells to all-inclusive contracting packages and low-cost solutions for energy supply

Transmission and Distribution

Cabling, transformers, switchgear, power supplies, instrumentation, network management, systems engineering and components, transport technologies of oil, gas and water

Date of Payment

Full payment is to be made along with the Application Form latest by **21st February, 2013**.

Cancellation of Participation

Request for cancellation of participation will be accepted if EEPC India receives the same in writing on or before **21st February, 2013**. EEPC India shall not entertain any cancellation afterwards. EEPC India Invites Participation for India Pavilion at INAPA 2013, Jakarta, Indonesia

(26 – 29 March, 2013)

Indonesia and its Economy

Indonesia with 240 million of population is the largest economy in Southeast Asia and also one of the emerging market economies of the world. Indonesia is also the member of G-20 major economies. Domestic consumption is one of the major driving forces behind the country's economic growth. The economic growth slowed considerably during 2007-08. However, like India and China, Indonesia recorded higher growth during the global financial crisis, compared to the other G20 members with GDP 5.5% in 2009.

Indonesia's economy expanded a higher-than-expected 6.4% in the second quarter as robust domestic demand offset a decline in the international appetite for its exports.

The economic expansion came despite signs that the country's commodities exporters are being hit by the global slowdown. Indonesia's exports—which are dominated by natural resources such as coal, palm oil and tin—have been sliding as commodity prices slip and demand from places like China and India have slowed. Indonesia announced last week that it recorded its worst-ever trade gap in June as strong domestic demand boosted imports even as its exports fell.

Auto Market

Auto makers have just recorded their best month ever in Indonesia, selling more than 100,000 passenger cars in July, more than 15% they sold here a year earlier. Indonesia's increasingly affluent middle class was buying new cars.

Indonesia is the 3rd world largest consumers in motor vehicle after China and India. The auto market in Indonesia is still major market in ASEAN with the number of vehicle to reach 20 million units of cars and 50 million units of motorcycles. Indonesia has become centre of production for ASEAN market from several global automobile industries (Volkswagen, Hino, Geely, Toyota, Honda, Daihatsu, etc). Indonesia is predicted to be the largest production of cars in ASEAN by 2011 (about 1 million units of cars per year). Auto market of Indonesia always upbeat, based on police data in 2009 the number of registration of car ownership in Indonesia reached 7.900.407 units and 52.767.093 units of motorcycles but in 2010, vehicle growth in Indonesia has increased until 15% and it is a component of industrial development opportunities in Indonesia.

About INAPA

INAPA is the ASEAN's largest trade fair for automotive parts, accessories, equipment and services. It is a sourcing platform to attract quality buyers from the whole automobile industry chain from car manufacturers, distributors and repair workshops to car care service centres.

It has further proved as the largest international trade show in Southeast Asia for auto parts, accessories and vehicle equipment. INAPA exhibitors also expressed a proven opportunity to boost sales and gain exposure as well as meeting with key decision makers and potential buyers. The show recognized the professional show of choice for buyer in automotive parts, accessories, automotive garage equipment in ASEAN.

INAPA 2013 will continue as the leading ASEAN premier platform for sourcing and procurement experts and professionals who want to create feasible business cases and expand their operation in Region. It is the only available platform for pronouncing your brand's presence in the Indonesia's Booming Automotive Market.
