M/s. NZ Production Services Limited, 40 William Pickering Drive 0632, Box 303 277 North Harbour 0751, New Zealand, Tel.: +64 9 415 4430, Mobile : +64 21 489462, E-mail : d.pountney@nzpsl.co.nz, Attn.: Mr. David Pountney is looking for a supplier in India to manufacture their aluminium and brass parts which are machined from solid rod in the following diameters : 12.70 mm, 15.88 mm, 19.05 mm, 25.4 mm, 31.75 mm and part lengths ranging from 12.05 mm to 61.00 mm.

They would like to establish an enduring relationship with a specialist machined parts supplier in India.

Their Criteria for a Machined Parts Supplier are :

- Size** : A medium sized, well established machining business, with approximately 15 to 30 lathes.
- Communications** : Good spoken and written English.
- Culture** : A production business doing medium (5000 – 10,000 parts) to long (20,000 - 100,000 parts) production runs. Not a short run jobbing shop.
- Experience** : Making small turned parts with a high standard of surface finish. Exporting to customers overseas.
- Equipment** : Numerous lathes with the functionality to make our parts to our quality specification in the shortest possible time e.g. Star Sliding Head Type Lathes model 20R SR111.
They would like an equipment schedule detailing each lathe's: brand, type, model # and age.
- Quality** : Mill certificate for each material purchase.
An effective QA facility and procedures.
A serious commitment to achieving consistently high quality.
Deliver only parts that meet their quality specifications in all respects.
- Service** : Deliveries to be in accordance with the agreed schedule.
Establish a Kanban when business volume warrants this.
- Prices** : Must be internationally competitive.

Members interested, are requested to contact the aforesaid firm directly.
