INDIA - GCC (Gulf Cooperation Council) Relation

The GCC countries, namely Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and UAE, are moving ahead with their economic integration efforts and offer tremendous potential for cooperation in trade, investment, energy, manpower etc. The Gulf region has historical, political, economic, strategic and cultural significance for India. India has traditional and friendly relation with all GCC member states. With a bilateral trade estimated at USD 145 billion during 2011-12, GCC is now our largest trading partner in the world.

The Gulf countries provide an excellent market potential for India's manufactured goods and services, especially in project services exports. The trade and investment flows between the two have increased substantially. There has been intensification of high-level interactions. Increasing number of Agreements and MoUs have been signed in last few years in wide ranging areas.

Export of engineering items to GCC region during the period 2010-2011 stood at US\$ 8194.53 million compared with US\$ 4014.08 million during the same period of the previous year, registering an overall growth of 104.14 per cent.

UAE holds special significance for India. UAE is India's top trading partner in the whole of West Asia and North African region, representing nearly 42.50% of India's exports to the GCC countries. Indian exports to the UAE account for approximately 7% of its global engineering exports.
