## Chairman's Pen

My dear fellow exporters,

Friends, the Rupee has once again breached the Rs. 40 barrier against the US Dollar and the media is hinting that, perhaps, the RBI would further tighten its monetary policy by increasing the Cash Reserve Ratio (CRR). The Council is extremely concerned over these developments and has been taking the issue up with all the concerned authorities. I may also mention that the Rupee appreciation has hit other exporting sectors as well like the textiles, apparel, tea, information technology and so on. Moreover, the rate of inflation too has come down to some extent and therefore it seems all the more beguiling as to why the RBI is not intervening. It may sound a little paradoxical too that at a time when the major problem lies with inflow of dollars into the country, the RBI has so far not attempted to revise lowering the ECB ceiling and in fact increased the ceiling a couple of months back.

Some analysts have also stated that the Rupee appreciation will not harm the overall balance of the economy, given the increased import intensity of Indian industry and the fact that ASEAN country currencies too have appreciated against the dollar. The Council would like to state that while import intensity has, indeed, increased and the Rupee appreciation may lower the cost to that extent, it must be kept in mind that a large majority of Indian exporters are generally low value added exporters who would gain very little from lower cost of imports. In fact, what is likely to happen a form of "deindustrialization" of the micro, small and medium scale exporting units. Perhaps, these units would look to selling their products in the domestic market, which is increasingly getting swamped by imports; but more importantly, if they succeed, this will have a long term adverse impact on India's balance of trade. Further, comparing India with ASEAN countries is an inappropriate way of looking at things since India's main competitor is China which continues merrily to have a sticky exchange rate. We are clearly moving to the Pre-1991 era when exports were given very little priority to the detriment of our economy.

This week the Council will have an opportunity to raise these issues before the august presence of the Hon'ble Commerce & Industry Minister, Shri Kamal Nath. The Council will be felicitating its National Awards Winners for Export Excellence for the year 2005/06 on June 1, 2007 at New Delhi. It was a herculean task for the Council to select the Award Winners, given the tremendous competition in each category. So while the Council will be felicitating 86 Award Winners in different categories of products, those who have missed the bus should not feel disheartened since their contribution in national export efforts have been no less and they will, I am sure, emerge as Awards Winners in the years ahead.

The Annual Award Presentation Ceremony on June 1, 2007 will also be the occasion when the Council will fulfill another commitment that it made to the Hon'ble Commerce & Industry Minister. This relates to the preparation of a comprehensive Strategy Paper on the prospects of growth of Engineering Process Outsourcing (EPO) from India. The Council had commissioned A.F.Ferguson & Co. to carry out a detailed Strategy Paper. This Strategy Paper is now ready and will be released on June 1, 2007 by Shri Kamal Nath. I do hope the recommendations in the Strategy Paper will be gone through by all stakeholders and appropriate steps will be taken to ensure that the potential that India has in the EPO sector will be realized in the years ahead.

Yours sincerely,

(RAKESH SHAH)

**ENGINEERING EXPORT PROMOTION COUNCIL**

**Invites Participation in**

**INDEE - Johannesburg, 2007  
(Indian Engineering Exhibition)**

**October 23 - 26, 2007**

**In association with  
Manufacturing Technology International Expo (MTI)  
at  
Expo Centre, Nasrec, Johannesburg, South Africa**

**Preamble**

It has always been EEPC's endeavour to foster exports of India's state-of-the-art Engineering Industry into world market.

In line with above EEPC is pleased to announce one of its major events – INDEE, Johannesburg – to be held in South Africa at Expo Centre, Nasrec, Johannesburg during 23-26 October, 2007. This is a major step forward to enter into the South African market.

**About South Africa**

South Africa is the economic powerhouse of Africa with a Gross Domestic Product (GDP) four times that of its Southern African neighbours and comprising around 25% of the entire continent's GDP. The country leads the continent in industrial output (40% of the total output) and mineral production (45%) and generates most of Africa's electricity (over 50%). Its major strengths include its physical and economic infrastructure, natural mineral and metal resources, a growing manufacturing sector, strong growth potential in the tourism, high value-added manufacturing and service industries. The financial and industrial sectors are concentrated in Gauteng Province which on its own accounts for over 30% of the country (GDP).

South African economy has been showing an upward trend since September-1999 and the annual economic growth rate from September-1999 through June-2005 has averaged at 3.5%. Gross Domestic Product (GDP) was running at an annualized 4.8% at the second half of 2005 (compared to 3.7% in 2004 and 2.8% in 2003).

**India-South Africa Trade Relations**

Since 1994 India South Africa relation has shown smooth development with signing of a number of bilateral agreements in diverse areas ranging from Defence, Culture, Science and economic cooperation.

Total trade between the two countries has grown significantly since 2001 with surge in both export and import, but India has remained a net Importer. But in the engineering sector, India's export to South Africa has maintained a steady growth

89.5% in 2005-06 and 94% in 2004-05 on year on year basis.

Potential growth areas for Indian exports to South Africa are – Vehicle and vehicle components, Transport equipments, Castings, Forgings, Hand Tools, Agricultural equipments, Two wheelers etc. There are also good potential for exports in the service industry like Software expertise, technical man-power training.

Indian investments in South Africa have grown significantly both in quantity as well as diversity. Major investors includes UB Group of India, Tatas, Mahindras, Ranbaxy, Cipla, Godrej, Ashok Leyland etc.
