ENGINEERING EXPORT BULLETIN

WEEKLY NEWSLETTER

VOL. 9 ISSUE NO. 14 APRIL 2, 2007

Highlights

India Engineering Center (IEC) at Johannesburg

India Engineering Center (IEC), Johannesburg, South Africa is aimed at providing warehousing, showcasing and distribution of products. Members willing to avail of this facility may contact Council's offices **immediately**.

Public Notice No. 91 (RE-2006)/2004-09 dated 29.03.2007 - Amendments in Handbook of Procedures (Vol. I).

Notification No. 23/2007-NT- Customs dated 26.03.2007 - Exchange Rate effective from 1st April, 2007 relates to imported goods.

Notification No. 24/2007-NT- Customs dated 26.03.2007 - Exchange Rate effective from 1st April, 2007 relates to export goods.

Govt. Notice/ Notifications

Chairman's Pen

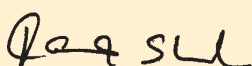

My dear fellow exporters,

Friends, the last week has been rather hectic in respect of media coverage with regard to possible Government thinking. Of special interest is the news that the Foreign Trade (Development & Regulation) Act of 1992 may be amended by the Government to arm itself with powers to impose quantitative restrictions (QRs) on imports to protect domestic industry. Also, services could also be brought under the Act, which so far has concentrated only merchandise goods. It remains to be seen how the Government amends the Act since India had earlier phased out QRs, though Article XX and XXI restrictions still remain on the grounds of general and security exceptions. But a conclusion that can be drawn is that as and when the Doha round concludes, we are, perhaps, likely to witness dumping or quasi-dumping situations that may require the temporary use of QRs. One, therefore, hopes that Government will take a balanced view before committing itself to cuts on the applied rates with regard to industrial tariffs.

There is also the news that the planned 2% cut in central sales tax from 2008-09 may be set off by a 1% increase in the VAT rates. Apparently, the finance ministry is looking into a proposal to increase VAT to 5% on items that are currently taxed at 4%. Perhaps, this may be extended on to the higher rates as well. It seems that the Government is taking a static views of things and not looking at multiplier effects of lower indirect tax rates that may lead to increased tax buoyancy thereby negating the possibility of potential revenue loss as a consequence of lower rates of CST.

Your Council has also expressed its concern to the Prime Minister on the continuous appreciation of the Indian Rupee vis-à-vis the US Dollar. Since August 2006, the Rupee has appreciated by over 7% and the last couple of days have hastened the appreciation considerably. This coupled with continuous escalation in prices of steel to the extent that secondary steel producers have increased steel prices by Rs. 1800 per ton has virtually made exports of engineering items from India an unviable proposition in the short run. We have also pointed out that the micro and small exporters do not have the necessary wherewithal to use modern finance and management tools, such as, price hedging, executing bargaining power or even looking at other non-volatile currency options. Thus, for them, the USD is the only currency medium for engaging in international contracts. Moreover, while counter-cyclical measures are important instruments for reigning in inflation, it does seem that the RBI is also using higher Rupee appreciation to control the general prices in the economy. Your Council has urged the Government to take appropriate steps in this regard to ensure that raw material prices can be brought under check to benefit our exporters, especially those belonging to the micro, small and medium scale sector.

Yours sincerely,

(RAKESH SHAH)

INDIA ENGINEERING CENTER (IEC) at Johannesburg, South Africa

Strategically located on the major world trade routes, South Africa has always been a business attraction for countries in the world over. A highly advanced infrastructure has virtually made South Africa the gateway to the entire sub-Saharan Africa. It is often compared to the Europe for its economic activities. Business opportunities between India and South Africa are immense and over the last few years, there has been enormous leap in the bilateral trade.

Keeping in view the business scenario, Council is launching an “**India Engineering Center**” (IEC) – a multi-purpose outlet of Indian engineering exporters under MAI Scheme of the Ministry of Commerce, Government of India. The Centre will be located at the THEBE House, 166 Jan Smuts Avenue, Rosebank, Johannesburg, South Africa. India Engineering Center will have the following facilities to benefit its members :

- Showroom Facility for Display of Products
- Warehousing Facility for Storing the Goods
- Distribution Center
- Marketing Support – Participation in Trade Fairs and Advertisements.

Showroom Facility

Showroom of IEC will be an exhibition of goods of participating companies all the year round. This will facilitate the Indian companies to invite their buyers in and around South Africa to the Showroom to look and satisfy themselves on the various aspects connected with quality and specifications of the goods. The Showroom is located at the premier location in Johannesburg with the space of 500 sq. mtrs. The participating company will be provided one standard display window containing the following :

- Area of 1 mtr. x 1 mtr.
- Fascia of the company
- One podium for display of products
- One catalogue holder (A4 size)

Depending on the product, instead of podium, pegboard or other type of platform will be made available. However, at the time of registration, participants will have to declare a list of products to be displayed in the window. Changes of product in the window is permissible within this declared list. Any extra cost on booth customisation will have to be borne by the participants.

The participating companies may use this facility as their own office in Johannesburg and may mention the address in their marketing communications, which will make their organization presence felt in the African markets.

The participating company in the Showroom will give an undertaking to EEPC to abide by the Showroom norms.

Thrust Product Sectors

After an in-depth market research, the following have been identified as Thrust Product Sectors for “India Engineering Center” :

- Primary Iron & Steel Products
- Auto Parts
- Electric Transformers
- Industrial Machinery
- Scientific and Surgical Instruments
- Hand Tools
- S. S. Utensils
- S. S. Wire and Wire Products
- Electric Motors
- Builders' Hardware
- Home Electric Appliances
- Bearings
- Industrial Fasteners
- I. C. Engines & Parts
- Wire Ropes
- Pipes and Pipe Fittings
- Agricultural Implements and Machinery
- Pumps

Companies in the other engineering products having potential in South Africa may also send their application for participation. However, the Screening Committee will take final decision in this regard.

Warehousing

The Warehouse will be located at Durban. The warehousing rates will be circulated shortly to avail the benefits.

Marketing Support

The Council will organize regular visits of South African buyers, from the matching sectors of IEC participants, to the Showroom for convincing them about sourcing their requirements from Indian companies. The Council will also organize Buyer-Seller Meets of participants with their African counterparts. Representatives of participating Indian companies will be free to join the BSM. These activities will further enhance the marketability of the products of participants of IEC.

Participation in Trade Fairs

The Council will identify Trade Fairs in South Africa and other African countries for the product groups of IEC participants. Council will organize an Information Booth in these Fairs to popularize "India Engineering Center" as source of supply and also furnish details on competence of participating companies.

The companies desirous of participating in these Trade Fairs in a separate booth will be provided with display space at subsidized rates (40% of booth cost). Kindly note that prior approval needs to be taken in this regard. Some of the following prominent exhibitions may be considered for further participation :

- FACIM – Trade Fair and Agricultural Exhibition (UFI) – Mozambique
- International Health Week for Medical and Surgical Equipment – Algeria
- MACTECH – Cairo, Egypt
- ITF – Lagos, Nigeria
- ITCE – Cairo, Egypt
- Tunis International Fair – Tunisia
- SIB International Exhibition for Building – Morocco
- Auto + International Exhibition for Car Equipment – Tunisia
- International Trade Fair (UFI) – Sudan
- Salon de' Auto/Salon de la Maintenance – Algeria
- Cairo International Fair – Egypt etc.

Please contact EEPC Territorial Office, New Delhi for further details.

Publicity through Print Media

In order to popularize India Engineering Center, Council will use the channel of print media, i.e. important newspapers, product specific magazines, mass mailing campaign etc.

Participants of IEC will also be entitled to release their customized advertisements, which Council will arrange at a subsidized rate (25% benefit will be offered). The Council

will communicate the exact amount payable to the interested companies depending on the size and location of the advertisement. Some of the prominent newspapers like Business Day, Business Report (The Star), The Weekender, Swoten (Business Supply), Die Beeld (Business), Citizen, Financial Mail, Guardian, Rapport etc., Trade Magazines like Trade Africa, Africa Connexion, Business in Africa, Trade pan-African Business, Engineering and Manufacturing Publications etc. Please contact EEPC Territorial Office, New Delhi for further details.

Visa for South Africa

Council will suitably recommend to the Embassy of South Africa in India for issuance of Visa to the representative of participating companies of India Engineering Center.

Charges & General Terms & Conditions

Companies participating in IEC will be required to pay the following charges :

Registration Charges*	Rs. 30,000/-
Rent per month for a Standard Display Window	
Of 1 mtr. x 1 mtr.	Rs. 10,000/- per month
(Rs. 1.20 Lacs per annum)	

* **Conditions of Deposit** : If participant continues for more than 24 months 100% of registration charges will be refunded, if participation is withdrawn within 12 to 24 months, 50% of registration charges will be refunded and if participation is less than 12 months, the registration money will be non-refundable.

For participating in India Engineering Center (IEC), Johannesburg : **Please pay Registration Charges of Rs. 30,000/- by Cheque/DD** in favour of "Engineering Export Promotion Council".

Interested member-exporters are requested to submit the **Application Form** (as per enclosed format) duly filled in.

Overseas Market Information

“Doha round negotiations and perspectives” on WTO Seminar Secretary of Economy, Auditorim Raúl Ramos Tercero, Mexico City

The expectation of travelling to Mexico City always brings to one's minds the idea of a bustling, modern and busy capital. It also brings to mind the history of this city, its impressive buildings, its Museum of Anthropology, with objects reminding us of the rich Aztec culture, its temples and mythology.

This is my first visit to Mexico since I took office as Director General of the WTO in September 2005, and I am very pleased to be here. I have come to tell you about the negotiations of the Doha Round and to ask for your support. We are at a crucial moment of the negotiations, and I need all the support I can get – primarily of countries like Mexico. And I am sure that some help from the Aztecs Gods of nature, rain and agriculture, whose beautiful images are displayed in that Museum, would do us no harm.

Since its launching in Doha, Qatar, in 2001, these negotiations have not been an easy endeavour. But we have been learning a lot in the process, and I am convinced – looking back with the advantage of critical distance – that events such as the Cancun Ministerial Conference, in 2003, have had a positive effect to the potential outcome of the Doha Development Agenda. What can be achieved today is more balanced and at the same time more substantial than what was proposed four years ago – but it was necessary to go through those events. We have learnt quite a lot in the process, with the milestones of the July 2004 framework agreement, in Geneva, and the results of the Hong Kong Ministerial Conference in December 2005.

The suspension of the negotiations in July of last year imposed on us all a period of reflection which, in retrospect, was also important to safeguard the achievements of the past years. And then, in January of this year, we were able to resume the negotiations in full mode. This shows that our Members are still confident in the potential of the Round. But it should be clear that some difficult trade-offs and technical work remains to be done in the near future.

Current Developments

Since February, the negotiations have resumed in full mode in all negotiating groups. Members are also working bilaterally, touching base and checking the impact of possible compromise numbers on products of their major export interests and main import sensitivities. There is also renewed engagement and support at the highest political level. Over the last few weeks, the US, EC, Brazil and India have held bilateral contacts in London and Geneva at Ministerial level. The day before yesterday, in Jakarta, from where I am now arriving, a group of Ministers from developing countries met to discuss specific issues on Agriculture. On my side, I have been having separate meetings with many Ministers – including with Secretary Sojo this morning - on numerous occasions since the resumption of the negotiations. From all of these meetings, in different formats and configurations, I know that some progress has been achieved in testing hypothesis, approaches and formulae.

While this can be helpful in contributing to the advancement of the negotiations, it is taking place at too slow a pace. Time is not on our side, and many WTO members are becoming increasingly impatient. The multilateral process of negotiations must therefore kick-in at full speed, and the Chairpersons of various negotiation groups must come into the centre stage. We need to speed up the process so as to grasp the window of opportunity which closes at the end of June with the expiry of the US Trade Promotion Authority.

The potential of the Doha Round

I would now like to refer briefly to the main issues under negotiation. Three issues are at the forefront of the discussions at this moment : agricultural subsidies, agricultural tariffs and industrial tariffs. Work is also on-going on trade in services to prepare the improved offers that each country should table in order to be ready for negotiations on the specifics of further market opening.

Furthermore, there is work in the areas of Antidumping, Subsidies – including Fisheries subsidies, Trade Facilitation or Trade and Environment, with development being like a red thread through all of them.

Starting with agricultural subsidies. What is already on the table today is pretty impressive, albeit not enough to lead us to the final success. In this part of the negotiations, the ball is very much in the court of the United States. The US must offer deeper cuts in its agricultural subsidies beyond its current proposal. Other countries will then follow suit.

One word on export subsidies. It should not be forgotten what has already been achieved, but is pending the final conclusion of the Round : the elimination, by 2013, of the most damaging type of subsidies, the agricultural export subsidies. A substantial part of them should already be gone by 2010, according to the agreement already on the table. I should say that there are also some important remaining issues in the export-subsidy part of the negotiations, like export credits or the rules on state-trading enterprises.

On agricultural market access, it is mainly for the EU and the G-10 (including countries like Japan and Korea) to agree on greater cuts in tariffs and enhanced access to their internal markets, beyond their current positions. Also on this part of the negotiations, India and the G33 – who were meeting in Jakarta this week, as I mentioned – must also make a contribution. They need to ensure that the special protection, which has been already secured for their most sensitive agricultural products, does not negate the overall objective of providing increased market access opportunities, as agreed when we launched the Round in 2001.

As far as industrial tariffs are concerned – this is the area we commonly call NAMA, or non-agricultural market access – the expectation is to see large developing countries, amongst which some of the members of the G20, like Brazil, India and Argentina, to agree on cuts in their import tariffs. Again, the necessary flexibility will be considered for some products, but the idea is that industrial tariffs are cut automatically, according to a new technology called the Swiss-formula, which cuts more on the high tariffs and less in the lower ones.

These are only the main areas in the negotiations, the locomotives of the train has many other (and no less important) wagons, such as services – of special interest to the Mexico –, rules on antidumping etc., as I mentioned above, which await a push to move into the final destination.

What's in it for Mexico?

In a country whose foreign trade is largely covered by an impressive network of preferential agreements – according to the notifications made to the WTO, Mexico has some 12 free trade agreements with 44 countries – one could rightly ask : why do we need the multilateral trading system, what's in it for Mexico in these negotiations?

There are many answers to that question, but the one, most direct one is : because the WTO and its rules provide stability to all of its Members, because the WTO is the basis of international trade. The very concept of “preference” of bilateral or regional agreements is constructed on the assumption that there is a basis – and the preference is only the “plus”. The basis is the multilateral system provided by the WTO.

In more practical terms, and going directly into a issue of specific importance for Mexico, the WTO is the only international forum where government subsidies are disciplined – and commitments to reduce them are undertaken. For a country like Mexico, which has opened or is opening its borders to imports of many products under preferential agreements, the WTO and the current Round are the only forum where agricultural subsidies granted by major developed countries can be tackled.

The same can be said about trade remedies. Multilateral rules on antidumping, anti-subsidies, as well as safeguard measures are of utmost importance in a country which has liberalized its trade regime. Mexican authorities have understood this and have strengthened their investigating mechanisms. The improvement of rules on antidumping is hence another area of specific interest for Mexico.

In Services, an area of growing importance for several large developing countries, Mexico has potential gains in several sectors (audiovisual, computer services, construction and

engineering) and has been playing a constructive role in the negotiations – not least through the Chairmanship of Ambassador Fernando de Mateo. Of specific interest to Mexico is also the so-called Mode 4 issue, which deals with the provision of professional services by individuals in foreign markets.

Another area of specific interest to Mexico is Dispute Settlement. Mexico has been one of the most active Members of the WTO in trade disputes, having started 17 cases and being the respondent in 14 of them. The last request of consultations by Mexico (with China on export subsidies) is a good example of the fact that there is no replacement for the multilateral trading system, even for countries with a vast array of bilateral agreements. I should also mention Mexico's very active participation in the negotiations to improve the rules on dispute settlement. Mexico's competence, initiative and authority in these talks are recognized by all and much appreciated.

To sum up, the current negotiations are of both a systemic and specific trade interest for Mexico. In systemic terms,

Mexico will benefit with improved, more stable and balanced rules and disciplines, in particular in Agriculture, Antidumping and on Dispute Settlement. In addition, the current negotiations have the potential of new market opportunities for Mexico's goods and services exports.

Conclusion

The Doha Development Agenda is the biggest challenge for the WTO since its creation in 1995. It is a challenge to achieve what was started in the Uruguay Round : a more level playing field in areas of particular interests to developing countries, such as agriculture. It is a challenge because it touches the edge of some of our Member's most entrenched interests. It will therefore take a great deal of political courage and commitment to conclude this Round successfully. We are not very far from that success – but this is the final stretch, and as in so many human endeavours, the last part is the most difficult. I truly believe that this can be achieved, and I count on the support of Mexico – and on the good vibes of its divinities.

<i>Item No.</i>	<i>Goods and Related Services</i>	<i>Unit of Measurement</i>	<i>Quantity</i>
- Lot 1 :	Equipment for plasmapheresis, haemapheresis with consumables and automatic scales mixer for blood collection		
1.1	Plasmapheresis equipment with disposables	piece	6
1.2	Haemapheresis equipment with disposables	piece	6
1.3	Automatic scales mixer for blood collection	piece	120
1.4	Sphygmomanometer	piece	240
- Lot 2 :	Blood collection, storage devices and consumables		
2.1	Stethoscope - General purpose	piece	240
2.2	Tourniquet	piece	240
2.3	Manual plasma extractor	piece	48
2.4	Disposable lancet	box (500)	400
2.5	Disposable test tubes	pack (100)	2000
2.6	Disposable sterile vacuum tubes with anticoagulant	pack (100)	2000
2.7	Disposable sterile vacuum tubes with anticoagulant	pack (100)	2000
2.8	Disposable needles	pack (100)	2000
2.9	Racks for test tubes		
2.9.1	Rack 1	piece	660
2.9.2	Rack 2	piece	660
2.19	Disposable capillary for blood sampling	pack (100)	2000
2.11	Plastic containers (triple blood bags) to collect and store blood	pack (100)	1000

<i>Item No.</i>	<i>Goods and Related Services</i>	<i>Unit of Measurement</i>	<i>Quantity</i>
2.12	Plastic transfer bags	pack (100)	40
2.13	Electric tube sealer for plastic containers	piece	12
2.14	Manual tube sealer for plastic sealers	piece	36
2.15	Cool Box 1 (48 hours storage rating)	piece	44
2.16	Cool Box 2 (24 hours storage rating)	piece	48
2.17	Crates for transportation and storage of blood bags	piece	40
- Lot 3 : Refrigerating Centrifuge			
3.1	Refrigerating Centrifuge	piece	24
- Lot 4 : Freezer/refrigerator for blood/plasma storage			
4.1	Plasma/blast freezer	piece	6
4.2	Blood bank freezer for plasma storage	piece	16
4.3	Blood bank refrigerator	piece	16
4.4	Refrigerator, fridge/freezer	piece	8
4.5	Combined refrigerator/freezer for blood/plasma storage	piece	176
- Lot 5 : Freezer/refrigerator for blood/plasma storage			
5.1	Refrigerator (150 l)	piece	251
- Lot 6 : Laboratory Equipment and reagents			
6.1	Water still (10l/h)	piece	6
6.2	Water still (4 l/h)	piece	65
6.3	Water bath-shaker	piece	12
6.4	Platelet incubator	piece	6
6.5	Incubator	piece	6
6.6	Bacteriological screening device	piece	6
6.7	pH Meter	piece	6
6.8	Laboratory centrifuge	piece	6
6.9	Laminar air flow cabinet	piece	6
6.10	Haematology analyzer	piece	6
6.10.1	Reagents	test	50,000
6.11	Haemoglobinometer, single channel	piece	6
6.11.1	Consumables	test	30,000
6.12	Binocular, immersion microscope	piece	6
6.12.1	Microscope slides	piece	300
6.12.2	Immersion oil	bottle	600
- Lot 7 : Laboratory Equipment and Reagents			
7.1	Coagulometer with reagents	piece	6
7.2	Spectrophotometer with reagents	piece	71

<i>Item No.</i>	<i>Goods and Related Services</i>	<i>Unit of Measurement</i>	<i>Quantity</i>
- Lot 8 : ELISA Analyzer			
8.1	ELISA analyzer	piece	6
8.1.1	PC workstation	piece	6
8.1.2	Flat screen monitor	piece	6
8.1.3	Laser printer	piece	6
8.1.4	Software program	piece	6
8.2	Pipette set including racks and tips	set	6
- Lot 9 : Testing kits for ELISA Analyzer			
9.1	ELISA test kit (HIV1, HIV2 and HIV)	microplates	2224
9.2	ELISA test kit (HBsAg)	microplates	2224
9.3	ELISA test kit (Anti-HCV)	microplates	2224
- Lot 10 : Power Supply Equipment			
10.1	Voltage stabilizer, single-phase capacity, 500 VA	piece	306
10.2	Voltage stabilizer, single-phase capacity, 15000 VA	piece	6
10.3	Voltage stabilizer, three-phase capacity, 15000 VA	piece	6
10.4	Uninterruptible power supply 500 VA	piece	65
10.5	Uninterruptible power supply 1000 VA	piece	12
10.6	Backup power supply device	piece	1

Tender cost : Non-refundable fee of US\$ 250 or an equivalent amount in local currency.

Bid security : 2% of the total bid price.

Bid deadline : **07.05.2007**

Exim Bank has been raising CPs/CDs/Bonds/loans at bench-mark rates

Exim Bank announced revision in interest rates on its Term Deposits across different tenors. The Bank now offers 9.50% p.a. (quarterly compounded) for 5 year tenor. Senior citizens and persons with disabilities are offered additional interest of 0.50% p.a. for 5 year Term Deposits.

The Bank's TDs are rated 'AAA' by CRISIL/ICRA/FITCH. The Bank accepts TDs for tenors ranging from 1 year to 5 years. The TDs offer a good combination of competitive returns and the highest safety as the Bank is wholly owned by Government of India.

Exim Bank has been raising CPs/CDs/Bonds at bench-mark rates. CRISIL and ICRA have consistently assigned 'AAA' rating to Exim Bank's short/medium/long term debt instruments offered in the domestic market.

Exim Bank, an apex financial institution set up under an Act of Parliament to promote India's International trade, is in its silver jubilee year. The Bank offers a menu of programmes to support Indian exporting companies in their globalisation efforts. The Bank's CRAR as on December 31, 2006 is 16.95%. The Bank's loan assets have grown at a compounded annual rate of 26% during the last 5 years.

Important Notice

To All Members

Monthly Export Returns

The format for submitting the Monthly Export Returns to the Council is furnished below. Member firms are requested to submit their Export Returns regularly every month to the Council as per this format.

1. Name of the Exporter :
2. Category of Exporter : SSI/SIA/Merchant/Export House
3. Nature of Export : Direct/Indirect
4. Reporting Month :
5. IE Code No. :
6. PAN No. :
7. State Code No. :
8. **A. Export Performance** :

ITC HS Code No.	Item/Service	Country of Export	Export during the month		Cumulative export during the year from 1st April to end of the reporting month	
			Qty.(MT)/ Unit	FOB Rs. in Lakhs/ US\$ '000	Qty.(MT)/ Unit	FOB Rs. in Lakhs/ US\$ '000

B. Deemed Exports :

ITC HS Code No.	Item/Service	Name of Indian Project	Export during the month		Cumulative export during the year from 1st April to end of the reporting month	
			Qty.(MT)/ Unit	FOB Rs. in Lakhs/ US\$ '000	Qty.(MT)/ Unit	FOB Rs. in Lakhs/ US\$ '000

C. Export Contracting Position :

ITC HS Code No.	Item/Service	Country of Export	New order secured during the month		Outstanding export orders position as on end of the reporting month	
			Qty.(MT)/ Unit	FOB Rs. in Lakhs/ US\$ '000	Qty.(MT)/ Unit	FOB Rs. in Lakhs/ US\$ '000

Note : Export Returns (Including Nil Returns) of the reporting month are to be submitted positively by the **10th of the next month** to Head Office, Engineering Export Promotion Council, Vanijya Bhavan (1st Floor), International Trade Facilitation Centre, 1/ 1 Wood Street, Kolkata 700 016 with a copy to respective Regional Office of the Council where the member-firm has been enrolled.

STATE CODES

All the exporters are required to indicate the state of origin of their export product in their shipping bills. For this purpose the following codes are to be utilised :

Code No.	Name of the State	Code No.	Name of the State	Code No.	Name of the State	Code No.	Name of the State
01	Assam	16	Orissa	39	Chandigarh	70	Madhya Pradesh
02	Meghalaya	17	Sikkim	44	Jammu & Kashmir	71	Chattisgarh
03	Mizoram	18	Tripura	46	Himachal Pradesh	80	Andhra Pradesh
06	Bihar	19	Andaman & Nicobar	50	Rajasthan	84	Karnataka
07	Jharkhand	20	Uttar Pradesh	54	Gujarat	89	Lakshadweep
09	Arunachal Pradesh	21	Uttaranchal	60	Maharashtra	90	Tamil Nadu
10	West Bengal	29	Delhi	67	Daman & Diu	96	Kerala
14	Nagaland	30	Punjab	68	Goa	99	Pondicherry
15	Manipur	34	Haryana	69	Dadra & Nagar Haveli
