“East Asia Business Exhibition” in Kuala Lumpur, Malaysia

11th ASEAN Summit, ‘East Asia Business Exhibition’ will be organized by Malaysian External Trade Development (MATRADE) in Kuala Lumpur during December 10-14, 2005.

India has a total area of 300 sq. mtrs. This exhibition is being participated in by 16 countries – all ASEAN countries plus Japan, China, Korea, Australia, New Zealand and India.

India will focus on the technological advancements made by India in different spheres. **“Hi-Tech India”** to be the theme of the India Pavilion. As India has considerable advances in specific areas of engineering products, participation of some hi-tech engineering companies in the Fair would be extremely useful.

The exhibition is being visited by Commerce & Industry Minister of all the participating countries and presents an excellent opportunity for high-level discussions on matters relating to trade. Corporate and business delegations from participating countries are also expected to visit the exhibition and the impact of Indian participating will go much beyond Malaysia. It is also significant that the fair is being specially organized on the sidelines of the ASEAN + 6 Summit.
