Chairman's Pen

My dear fellow exporters,

The Sub-Group for engineering goods & exports under the Working Group and the Planning Commission for boosting Indian manufacturing exports for the 12th Five Year Plan has recommended on Indian engineering export target of US\$ 216 billion by 2016-17.

For this, the Sub-Group has also identified a large number of problems and challenges faced by Indian engineering exporters which include issues relating to competition from China, Technology related problems, high cost of credit, credit availability, high cost of industrial inputs, trade barriers, infrastructural bottlenecks, high transaction cost, non-zero rating of export and embedded taxes, high fuel cost, manpower challenges and the vagaries of world demand. The Group has also suggested a large number of measures for implementation in the 12th Five Year Plan to increase the production of engineering capacity as well as exports.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Aman Chadha'. The signature is fluid and cursive.

Council's Activities

Invites Participation in “The India Show” in Toronto, Canada (17 - 20 October 2011)

***Coincides with
CMTS 2011 - The Canadian Manufacturing Technology Show***

at

Direct Energy Centre, 100 Princes' Blvd, Toronto, ON M6K 3C3, Canada

While announcing the New Foreign Trade Policy for the period 2009-2014 on August 27, 2009, the Union Commerce & Industry Minister, Shri Anand Sharma had observed that “the Government seeks to promote Brand India through at least six ‘Made in India’ shows to be organized across the world every year”. Accordingly, EEPC India will organize its 2nd “The India Show” in Toronto, Canada with support from Ministry of Commerce & Industry, Government of India. The main objective of “The India Show” is to promote India’s Image and provide a platform to Indian Exporters to showcase their strengths and capabilities in an emerging market and developed country like Canada. The Show also enables us to get closer to fast-growing markets in North America. It will be our endeavor to highlight India as “Technology Hub” for Manufacturing Industry with equal participation from Small, Medium & Large industries.

“The India Show” is synchronized with the largest and most famous industrial exhibition CMTS 2011 (The Canadian Manufacturing Technology Show) organized by SME (Society of Manufacturing Engineers), Canada. India has been dedicated as “**Strategic International Partner**” in the exhibition. Around 150 Indian companies are participating at “The India Show” and there is large opportunity for partnership development, networking and exploring business linkages for your product. In 2009, there were 600 exhibitors from the manufacturing and distributing industries and a large number of professional visitors from manufacturing sector.

It is a specialized technology exhibition, covering product groups such as:

- Engineering Equipment and Components
- Industrial Machinery
- Machine Tools and Accessories
- Auto Parts
- Hand and Cutting Tools
- Aluminium Products and Supplies
- Intermediate Goods
- Mining and Building Equipment
- Renewable Energy Equipment

Why Canada

- Ernst & Young has identified Canada as one of the high-potential thrust markets for Indian engineering goods in the Strategy Paper for Growth of Engineering Exports.
- The Canadian Government has identified India as a key trade partner under its Global Commerce Strategy.
- The Canadian economy has grown at the rate of 10.9% over 2004–2008, with the absolute GDP at US\$1.5 trillion in 2008, making it one of the fast growing economies in the world. The economy of Canada is the ninth largest in nominal terms, and the fourteenth largest in PPP terms.

- Canada is one of the bright spots in the global economy. In 2009 Canada's GDP growth rate was 2.4 per cent, and according to the Country Commercial Guide 2010 of the US Government, the economy is predicted to grow 2.5 per cent and 3.2 per cent in 2010 and 2011, respectively.
- According to a 2009 Bank of Canada survey, Canadian businesses were experiencing a gradual increase in sales. Canada's strong and conservative banking and financial sector and increasing commodity prices have strengthened the Canadian dollar, reaching almost at par with the U.S. dollar. The strong Canadian dollar, growing Canadian economy and the increased demand for goods and services will make Canada a much sought after business partner in the years to come.
- Canada sourced 33% of its engineering imports from outside the NAFTA bloc in 2009, the value of which was about US\$44 billion.

Why choose Toronto

- Ontario's capital, Toronto, is Canada's commercial centre, home to half the country's largest financial institutions, 90 per cent of its international banks, and over 75 per cent of US subsidiaries in Canada. Ontario remains the economic engine of Canada due to its substantial and highly diverse industrial base.
- Of the world's largest cities, Toronto has the 7th largest economy, with a GDP of over US\$ 225 billion. It comprises 11% of Canada's GDP.
- Toronto's key industry clusters include automobile, aerospace, biomedical and biotechnology.
- Ontario is part of the North American manufacturing heartland.
- Ontario's highly diversified economy offers excellent opportunities in all sectors ranging from automotive, plastics, and aerospace to information and telecommunications technology and the life sciences.

EEPC India Invites Participation for India Pavilion at EMO Hannover 2011, Germany (19 - 24 September 2011)

EMO Hannover is the world's premier trade fair for metalworking technology - meeting point for the entire international sector - global forum of can-do technical competence. With the principal focus on cutting and forming machine tools, manufacturing systems, precision tools, automated materials flows, computer technology, industrial electronics and accessories, it will once again be the platform where the whole metalworking world meets. The specialist and decision-making competence of the visitors to EMO Hannover is unparalleled, a tendency that is promoted by the unmatched innovative potential of productivity and efficiency that they have come to expect. EMO Hannover 2011 is the venue for top-level competence among providers and users.

EMO Hannover 2011 will organize by the VDW (The German Machine Tool Builders' Association) with the cooperation of its long-standing partners Deutsche Messe AG, Hannover.

The trade fair EMO is organized under the patronage and at the initiative of the European Committee for Cooperation of the Machine Tool Industries (CECIMO). EMO takes place every other year, twice consecutively in Hannover, once in Milan, e.g. Hannover - Hannover - Milan - Hannover - Hannover - Milan.

During the previous edition in 2007, 1,66,500 visitors from 82 countries came to Hannover, Germany to buy machines, place orders and find out about the latest developments in the world of metalworking. There were 2,120 exhibitors from 42 different countries. Decision-makers in production technology use EMO Hannover as a point of orientation.

EEPC India is organizing an India Pavilion at EMO Hannover 2011 which would provide an excellent platform for the Indian metalworking industry to showcase its capability and make inroads in to this huge market through this most prestigious show.

EEPC India invites applications from its members to participate in this most important and largest international exhibition for metalworking industries.

Product Category

The following products/areas would be covered in the exhibition:

- Machine tools for cutting, splitting and milling
- Sheet metal, wire and tube working machines, metal forming machine tools
- Machine tools for thermal, electro chemical and other processes
- Surface finishing technology, thin-film processes
- Software for entire manufacturing technology area
- Control systems
- Components for flexible automation
- CAD/CAM
- Quality management systems
- Robotics and automation
- Material flow and storage technology
- Industrial electronics, sensor and diagnostic technology
- Precision tools, diamond tools, measuring tools
- Metal forming machine tools
- Machines and systems for tool and mould construction, rapid prototyping, model construction
- Instrumentation and control technology
- Coolants, lubricants
- Welding, cutting, hardening, heating
- Mechanical, hydraulic, electrical and electronic accessories for manufacturing technology

EEPC India Invites Participation for India Pavilion at ITMA 2011, Barcelona, Spain (22 - 29 September, 2011)

ITMA has been recognized as the Olympics of textile machinery exhibitions since its inception in 1951. Held every four years, it has attracted leading buyers from all over the world and from all areas of the textile and garment industry.

ITMA 2011 provides visitors the full suite of machinery and technology for textile and garment manufacturing, including fibre and yarn, spinning, winding and texturing, non-woven production, weaving, knitting and hosiery, garment making and textile processing, embroidery and braiding, dyeing, printing and finishing, dyestuffs and chemicals, testing, recycling, logistics, software and research and education.

At ITMA, cutting-edge solutions for the entire textile-making chain goes on show. Leading names in the textile machinery manufacturing converge at this must-attend platform every four years.

ITMA 2011 will continue to be the global marketplace and networking industry platform:

- a world-class, one-stop solutions showcase for the whole textile-making process
- a place for gathering business intelligence and best practices
- a gathering of industry leaders for outstanding business and networking opportunities

EEPC INDIA is organizing an India Pavilion at ITMA 2011, Barcelona, Spain which would provide an excellent opportunity for establishing business relationships with customers from all over the world.

Focus Products

- Machinery for Spinning Preparation, Man-made Fibre Production, Spinning, Auxiliary Machinery and Accessories
- Machinery for Winding, Texturing, Twisting, Auxiliary Machinery and Accessories
- Machinery for Web Formation, Bonding and Finishing of Nonwovens and Felting, Auxiliary Machinery and Accessories
- Weaving Preparatory Machinery, Weaving, Turfing Machinery, Auxiliary Machinery and Accessories
- Knitting and Hosiery Machinery, Auxiliary Machinery and Accessories
- Embroidery Machinery, Auxiliary Machinery and Accessories
- Braiding Machinery and Accessories
- Washing, Bleaching, Dyeing, Printing, Drying, Finishing, Cutting, Rolling and Folding Machinery, Auxiliary Machinery and Accessories
- Garment Making Machinery, Other Textile Processing Machinery, Auxiliary Machinery and Accessories
- Laboratory Testing and Measuring Equipment and Accessories
- Transport, Handling, Logistics, Storing and Packing Equipment and Accessories
- Equipment for Recycling, Waste Reduction and Pollution Prevention and Accessories
- Software for Design, Data Monitoring, Processing and Integrated Production
- Dyestuffs and Chemical Products for the Textile Industry
- Equipment and Products to ensure Machinery and Plant Operations
- Services for the Textile Industry
