Chairman's Pen

My dear fellow exporters,

The Council will be meeting the Sub Group on MSME and the manufacturing sector this week to look at various options of doubling exports in the engineering sector in the 12th five year plan. In our presentation, EEPC India will be making a whole range of suggestions including those relating to the Technology Upgradation scheme, extension of DEPB scheme, liberalization of ECB Rules etc. so that it is possible to double our exports in the next five years.

Yours sincerely,

EPEC India Invites Participation for India Pavilion at EMO Hannover 2011, Germany (19-24 September 2011)

EMO Hannover is the world's premier trade fair for metalworking technology - meeting point for the entire international sector - global forum of can-do technical competence. With the principal focus on cutting and forming machine tools, manufacturing systems, precision tools, automated materials flows, computer technology, industrial electronics and accessories, it will once again be the platform where the whole metalworking world meets. The specialist and decision-making competence of the visitors to EMO Hannover is unparalleled, a tendency that is promoted by the unmatched innovative potential of productivity and efficiency that they have come to expect. EMO Hannover 2011 is the venue for top-level competence among providers and users.

EMO Hannover 2011 will organize by the VDW (The German Machine Tool Builders' Association) with the cooperation of its long-standing partners Deutsche Messe AG, Hannover.

The trade fair EMO is organized under the patronage and at the initiative of the European Committee for Cooperation of the Machine Tool Industries (CECIMO). EMO takes place every other year, twice consecutively in Hannover, once in Milan, e.g. Hannover - Hannover - Milan - Hannover - Hannover - Milan.

During the previous edition in 2007, 1,66,500 visitors from 82 countries came to Hannover, Germany to buy machines, place orders and find out about the latest developments in the world of metalworking. There were 2,120 exhibitors from 42 different countries. Decision-makers in production technology use EMO Hannover as a point of orientation.

EPEC India is organizing an India Pavilion at EMO Hannover 2011 which would provide an excellent platform for the Indian metalworking industry to showcase its capability and make inroads in to this huge market through this most prestigious show.

EPEC India invites applications from its members to participate in this most important and largest international exhibition for metalworking industries.

Product Category

The following products/areas would be covered in the exhibition:

- Machine tools for cutting, splitting and milling
- Sheet metal, wire and tube working machines, metal forming machine tools
- Machine tools for thermal, electro chemical and other processes
- Surface finishing technology, thin-film processes
- Software for entire manufacturing technology area
- Control systems
- Components for flexible automation
- CAD/CAM
- Quality management systems
- Robotics and automation
- Material flow and storage technology
- Industrial electronics, sensor and diagnostic technology
- Precision tools, diamond tools, measuring tools
- Metal forming machine tools
- Machines and systems for tool and mould construction, rapid prototyping, model construction
- Instrumentation and control technology

EEPC India invites Participation for India Pavilion at PAACE Automechanika 2011, Mexico (13 - 15 July, 2011)

EEPC INDIA is organizing an India Pavilion at PAACE Automechanika Mexico 2011 which is one of the leading automotive shows in Mexico as well as Latin American countries. This show will be held in conjunction with the International Week of the Automotive Industry and with the support of important industry associations, PAACE Automechanika Mexico has become a growing platform for automotive business in this region. 647 exhibitors from 19 countries participated in the year 2010.

PAACE Automechanika Mexico is the ultimate platform for displaying domestic and international products to Mexico and Central America's top automotive buyers and key industry players. In addition to the thousands of products, services and resources available on the exhibit hall floor, PAACE Automechanika Mexico offers valuable education and training, unmatched business solutions, exciting networking events and more.

The fair has proven a record to meet suppliers, manufacturers face to face, see the latest technology trends and identify the future markets conditions. The fair witnessed 21,146 trade visitors in 2010. APRA - Automotive Parts Remanufacturers Association, MEMA - Motor Equipment Manufacturers Association and SEMA – Specialty Equipment Market Association are some of the key supporters for PAACE Automechanika Mexico.

Automotive Market in Mexico

The Mexican automotive industry is one of the fastest growing sectors in Mexico. Due to its geographic location and large population of over 100 million people, Mexico is well known for its outstanding opportunities in the automotive industry. Mexico is the world's 11th largest automotive producer and is forecasted to rank 5th by 2011. The auto parts and suppliers industry in Mexico generates approximately 7.5% of the country's GDP. Mexico's automotive production has grown at an astounding rate – approximately ten percent per year over the past three years.

As the Mexican automotive industry experiences tremendous growth, so do the opportunities that exist in the market. Consistent increases in vehicle circulation, parts and accessories imports make Mexico a very lucrative market for business.

Mexico is the 10th largest light vehicle producer in the world and the single largest exporter of auto parts to the US, surpassing Canada and Japan. 90 of the top 100 global auto parts manufacturers have established manufacturing operations in Mexico. From August 2005 to January 2008, 17,76,284 vehicles between 11 and 15 years old and 10,73,654 vehicles 10 years old were imported into Mexico. Mexico is one of the few countries with the largest number of brands participating in its market.

In 2010-11 (April-September), India exported nearly USD 11.48 million worth of auto component to Mexico. Transport equipment accounted for sizeable percentage of total exports from India to Mexico.

Focus Products

Parts & Systems - Vehicle parts, components and systems of the drive, chassis, body, electrics and electronics groups.

Accessories & Tuning - Vehicle accessories, special equipment, tuning, performance systems, design refinement, tyres, wheels, wheel accessories.

Repair & Maintenance - Equipment for vehicle service and repair, bodywork repair and painting, workshop equipment, dealership equipment, waste disposal and recycling.

IT & Management - IT products, insurance, finance, leasing, claims management, vehicle inspection services, dealer management systems, dealership planning and construction, dealership marketing.
