

Chairman's Pen

My dear fellow exporters,

The Council will be meeting the Sub Group on MSME and the manufacturing sector this week to look at various options of doubling exports in the engineering sector in the 12th five year plan. In our presentation, EEPC India will be making a whole range of suggestions including those relating to the Technology Upgradation scheme, extension of DEPB scheme, liberalization of ECB Rules etc. so that it is possible to double our exports in the next five years.

Yours sincerely,
