Chairman's Pen

My dear fellow exporters,

As we begin the fiscal year 2011-12, there is some good news on the export front. On March 10, 2011, the Union Commerce Secretary, Dr Rahul Khullar released the export data for the first eleven months of the fiscal year 2010-11. India's exports touched USD 208.2 billion for the period April 2010 to February 2011. This implies that we have been able to meet the export target of USD 200 billion set for the full year by February 2011. Dr Khullar expressed optimism that we could close the fiscal year with total exports in the range of USD 230-235 billion.

The main propeller of this growth has been India's engineering exports. India's engineering companies exported goods worth USD 52.7 billion which accounts for 25.3% of India's total exports for the period April 2010 to February 2011. The sharp increase in engineering exports, which is 81% more than the export that was witnessed during April 2009 to February 2010, is largely on account of the efforts of our members and also the proactive role that has been played by the Council in seeking supportive policy measures from the Government.

An interesting aspect of this growth process is that even if export growth is considered over 2008-09, India's engineering exports will achieve a record growth of 40% in the current fiscal over 2008-09. This means that the normal trend growth of 31% that has been witnessed for engineering exports during 2003-08 (leaving the year 2009-2010 which was an abnormal year) has been surpassed in fiscal year 2010-11. We, therefore, hope that this trend will be continued in the present fiscal year and the Government will continue with the benefits that have been provided to the engineering sector.

Yours sincerely,

(AMAN CHADHA)

Council's Activities

EEPC INDIA (formerly Engineering Export Promotion Council)
Sponsored by Ministry of Commerce & Industry, Government of India
(An ISO 9001: 2000 organisation)

EEPC India Invites Participation for India Pavilion at Automechanika Middle East 2011 (7 - 9 June 2011, Dubai, UAE)

Automechanika Middle East is the event for the rapidly developing automotive aftermarket in the wider Middle East and Africa. The event covers the full range of parts for motor vehicles, as well as components for the drive, chassis, body, electrics and electronic groups, equipment for vehicle service and repair, bodywork repair and painting, tyres, batteries and performance systems. Automechanika Middle East continues to confirm the participation of market leaders from the automotive sport, workshop equipment, tyres & batteries, parts & systems, repair & maintenance and accessories & tuning Industries worldwide.

Dubai is a strategic location between Europe and the Far East with excellent trade connections. From here, the lucrative Middle East, Sub-Continental and African markets can be easily reached with their combined population of more than 1 billion people. Considering import/re-export ratio, Dubai is the third most important re-export centre in the world after Hong Kong and Singapore. The Spare Parts market in the Gulf States is valued at over US\$12.6 billion per year. Auto parts are consistently listed as one of the top ten re-exported commodities from Dubai.

The Gulf Countries have been trade partners of India for centuries. The discovery of Oil opened a new era of Industrialization of this region. The GULF markets are growing markets for Indian engineering goods. Export of engineering items to this region during the 2008-09 stood at US\$ 6.16 billion compared with US\$ 5.73 billion during previous financial year, registering an overall growth of 7.5 per cent.

EEPC INDIA is organizing an India Pavilion at Automechanika Middle East 2011, Dubai, UAE which would provide an excellent opportunity for establishing business relationships with customers from all over the world.

EEPC India Invites Participation for India Pavilion at Newcast 2011, Düsseldorf, Germany (28 June - 2 July, 2011)

The third NEWCAST exhibition will be taking place in Düsseldorf, Germany during 28th June – 2nd July 2011. This is the world's leading international trade fair for precision castings offering encouraging conditions for attracting new business.

EEPC INDIA is organizing an India Pavilion at this show. As an exhibitor, at this event you get the opportunity to meet the top decision-makers of the casting industry from all over the world, who are on the look-out for innovative "casting solutions" and sustainable "casting concepts". More than half of the trade fair visitors and users came to the NEWCAST in 2007 with firm intentions to invest in new business and technology. The NEWCAST has emerged as the most important platform to present highly innovative sustainable solutions in cast iron for all industrial growth markets. It offers high-caliber "business to business" encounters with International purchasers, users and industry leaders in attendance.

Focus Sector

The spectrum of focus ranges from vehicle manufacturing and the aerospace industry to machinery and plant technology and even as far as medical technology. For the sustainable, environmentally-friendly, low-CO₂ energy production of the future, casting products play a central role on the basis of innovative materials.
