

## **EEPC India Invites Participation for India Pavilion at ArabPlast 2011, Dubai, UAE (8 - 11 January, 2011)**

**ArabPlast** is the largest and most established trade fair for plastics and rubber industry in the Middle East showcasing wide spectrum of technology, machinery and equipments. It brings together leading manufacturers and buyers.

Arabian Gulf region plays a key role in the global plastics industry, supplying almost 80% of all crude oil worldwide. The plastics sector is developing rapidly with the constant increase in the number of plastic and rubber companies in the region. The demand generated from the booming construction and engineering projects is expected to trigger an estimated annual growth of over 30% in the UAE plastic and rubber industry. INDIA shares a special relationship with the Arab region, both in terms of culture and trade. Arab countries, with a combined GDP of US\$ 1450 billion and a GDP growth of 20%, offer ample bilateral opportunities for India.

The Gulf Countries have been trade partners of India for centuries. The discovery of Oil opened a new era of Industrialization of this region. The GULF markets are growing markets for Indian engineering goods. Export of engineering items to this region during the 2008-09 stood at US\$. 6.16 billion compared with US\$. 5.73 billion during previous financial year, registering an overall growth of 7.5 per cent. UAE holds special significance for India. UAE is India's top trading partner in the whole of West Asia and North African region, representing nearly 75% of India's exports to the Gulf Cooperation Council (GCC) countries. Indian exports to the UAE account for approximately 6% of its global exports.

EEPC India is organizing an India Pavilion at **ArabPlast 2011**, Dubai, UAE which would provide an excellent opportunity for establishing business relationships with customers from all over the world.

### **Focus Products**
