

Chairman's Pen

My dear fellow exporters,

As mentioned earlier, this week EEPC India will be hosting its 24th INDEE in Cairo from November 25-28, 2010. Around 79 Indian companies will be participating at this show. We do hope that this show will be able to bring greater awareness for Indian engineering goods in one of the leading economics of Africa.

The Council has been asked to prepare a strategy of doubling exports from the current level of US\$ 40 billion to US\$ 80 billion in the three years and will also be presenting its Foreign Trade Policy suggestion to the Government for the next fiscal year. Members interested in providing their suggestions are requested to kindly send the same to the Council's Secretariat at the earliest.

Yours sincerely,
