There are individual sockets that are wired together internally. They need the plug sockets to suit Indian standard which has 3 round pins. They need 8 way and 5 way versions, approximately 1500-3000 power strips per year on this new project, 500 mains cables 3 metres long with moulded on 3 pin Indian plug. The cable needs to be 3 core, 1 live, 1 neutral and 1 earth, wire to be 1.5mm cross section. The power strips, mains cables and 3 pin plug must be fully tested. They believe to the standard IS 1293-1995 and IS1293-2005 at the latest revision. They need to see copies of CE certification and test results if required, pricing for samples and production run as stated above. Interested member-exporters are requested to contact the above firm directly for the supply of power strip with the design and relevant standards. (Drawings/specifications can be obtained from any of the EEPC INDIA offices in India/ downloaded from the EEPC India website.</p>
