Chairman's Pen

My dear fellow exporters,

I must say that the Union Budget Proposals for 2010-11 befit the time and the Hon'ble Union Finance Minister, Shri Pranab Mukherjee deserves our whole hearted appreciation for growth ingredients in the Budget while ensuring that unnecessary exuberance in certain sectors is dampened.

From the perspective of the exporting community, I welcome the extension of the Interest Subvention Scheme for another year but it would have been better if engineering sector had been included given that it is still not out of the woods. I also welcome the proposed expansion of the powers of the Settlement Commission. Further, the extension of benefits for SEZs under Section 10B of the Income Tax Act is, indeed, most timely.

I also thank the Hon'ble Union Finance Minister for the intimating the time line for the Direct Tax Code and GST to be introduced from April 1, 2011 as also for not increasing the service rate from 10% to 12%. This is, indeed, a positive step and will surely help Indian industry. Further, the changes in personal income tax rates as well as boosting infrastructure spending will have a multiplier effect on the Indian economy. I also express my great satisfaction that the Hon'ble Finance Minister for accepting the EEPC India suggestion for enhancing the weighted deduction on expenditure incurred on in-house R&D from 150 per cent to 200 per cent. Further, the budget proposals has also enhanced the weighted deduction on payments made to National Laboratories, research associations, colleges, universities and other institutions, for scientific research from 125 per cent to 175 per cent. These measures, I have no doubt, will lead to technology upgradation in Indian industry.

Yours sincerely,

India Pavilion at ITMA ASIA + CITME 2010, Shanghai, China **(22 - 26 June, 2010)**

About the Event

ITMA ASIA + CITME – Asia’s largest International Textile Machinery Platform

ITMA is the world’s largest international textile machinery exhibition, an event which is owned by CEMATEX. ITMA is recognized as the ‘Olympics’ of the textile machinery industry and the event has taken place every 4 years since its launch in 1951. In 1999, CEMATEX made the decision to introduce an event which catered to the growing needs of Asian textile manufacturers which represent a significant percentage of its association members’ buyers. In 2001, ITMA ASIA made its debut in Singapore.

CITME was launched in 1988. It has grown to be the most established as well as the largest international textile machinery exhibition in China. It has become the first ever international textile machinery exhibition in China endorsed by UFI (the Global Association of the Exhibition Industry) in 2002.

In 2008, a combined show known as “ITMA ASIA + CITME” was launched in China. Taking off in Shanghai, the milestone event features the unique strengths of the ITMA brand and China’s most important textile event -CITME. This move to combine the two shows into one mega high-quality event is strongly supported by all nine CEMATEX European textile machinery associations, CTMA (China Textile Machinery Association) and JTMA (Japan Textile Machinery Association). The second combined show will be held from 22 to 26 June 2010, again in Shanghai. ITMA ASIA and CITME are two of the most influential trade shows for the industry. The integration of these two well-established exhibitions into one mega show aims at offering their exhibitors and customers a high quality cost effective exhibition.

Opportunities in the Textile Machinery Market in China

A major manufacturing centre for textile products, China has become the world’s most dynamic market. This has generated enormous demand for high-tech textile machinery. In recent years, China’s textile industry has enjoyed rapid growth. Currently, it has one third of the global textile production capacity. With the dismantling of quota restrictions on textile and clothing exports at the end of 2004, and the rapid development of technology, the textile industry has witnessed massive changes. The need for Asian textile makers to modernize their operations in order to compete globally has spawned huge investment in quality machinery. As a result, leading textile machinery manufacturers will benefit from these buoyant market opportunities.

India’s Exports of Textile Machinery to China

The export of textile machineries from India to China has reached a level of US\$ 6.23 million in 2007-08 against a value of US\$ 5.46 million during 2006-07 thereby registering a growth of 14%. The last four years trend indicates an average growth of 18%.

Features of ITMA ASIA + CITME 2010

- A mega showcase of cutting-edge solutions for textile makers
- Strong support of major trade associations from around the world
- Some 100,000 trade visitors from all sectors of global textile industry
- Over 100,000 sq. mtr. exhibition space

EEPC India Invites Participation for India Pavilion at Automechanika Middle East, 2010, Dubai, UAE (25 - 27 May, 2010)

Automechanika Middle East is the event for the rapidly developing automotive aftermarket in the wider Middle East and Africa. The event covers the full range of parts for motor vehicles, as well as components for the drive, chassis, body, electrics and electronic groups, equipment for vehicle service and repair, bodywork repair and painting, tyres, batteries and performance systems. Automechanika Middle East continues to confirm the participation of market leaders from the automotive sport, workshop equipment, tyres & batteries, parts & systems, repair & maintenance and accessories & tuning Industries worldwide.

Dubai is a strategic location between Europe and the Far East with excellent trade connections. From here, the lucrative Middle East, Sub-Continental and African markets can be easily reached with their combined population of more than 1 billion people. Considering import/re-export ratio, Dubai is the third most important re-export centre in the world after Hong Kong and Singapore. The Spare Parts market in the Gulf States is valued at over US\$12.6 billion per year. Auto parts are consistently listed as one of the top ten re-exported commodities from Dubai.

The Gulf Countries have been trade partners of India for centuries. The discovery of Oil opened a new era of Industrialization of this region. The GULF markets are growing markets for Indian engineering goods. Export of engineering items to this region during the 2008-09 stood at US\$. 6.16 billion compared with US\$ 5.73 billion during previous financial year, registering an overall growth of 7.5 per cent. UAE holds special significance for us. UAE is India's top trading partner in the whole of West Asia and North African region, representing nearly 75% of India's exports to the Gulf Cooperation Council (GCC) countries. Indian exports to the UAE account for approximately 6% of its global exports.

EEPC INDIA is organizing an India Pavilion at **Automechanika Middle East 2010**, Dubai, UAE which would provide an excellent opportunity for establishing business relationships with customers from all over the world.

EEPC India Invites Participation for India Pavilion at China Cycle 2010, Shanghai, China (27 - 30 April, 2010)

China leads the world in the number of bikes produced per year with about 87 million units and 60% exports to 170 nations and regions. As the producing center of bicycle industry in the world, China is becoming one of the largest cycling consumer markets as well. The Chinese cycling market has seen a rapid development in recent years. International brands have opened stores throughout the country together with more than 300 IBD shops.

Although China is the largest producer and exporter of bicycles, tremendous opportunities exist for the Indian manufacturers in the wake of the ongoing global economic situation. Cost of labour and raw materials in China are on a high in China. Moreover, strong currency is believed to have eroded the proverbial Chinese competitiveness to some extent. Chinese companies are now willing to enter into joint venture agreements with the manufacturers in countries like India. It is high time the potentials were tapped, and this exhibition provides an excellent opportunity to put the first step in this regard.

China Cycle 2010 is the international trade fair for bicycles, components, and accessories. It will run three concurrent events namely, The 20th China International Bicycle & Motor Fair, China International E-bike Fair 2010 and China International Motor & Parts Fair. In 2009 there were **around 1,000 exhibitors from 87 countries and regions.**

EEPC INDIA is organizing an **India Pavilion at China Cycle 2010** (The 20th China International Bicycle & Motor Fair) scheduled to be held from 27-30 April, 2010 at Shanghai New International Expo Centre, Shanghai, China. This will provide an excellent opportunity to learn about the latest development on ideas and technologies of the industry, to meet new product and trend, to communicate with Chinese leading bicycle suppliers, OEM/ODM providers and international brands, to establish your network with key-decision makers, technical experts and to develop new contacts and business relationships with customers from all over the world.

Important Notice

Hyperlinking of Home Page of Engineering Firms on EEPC INDIA Website

As you are aware, EEPC India is having its own website www.eepcindia.org (EEPCNet) on Internet URL. The visitors to our site are not only accessing general pages but also the home pages of member-exporters hyperlinked on EEPCNet.

Following are the benefits in availing Home Page Hyperlinking Services

1. Your company will have an opportunity to be listed on India's only website exclusively on Engineering Sector.
2. Overseas buyers will have more confidence in business interactions with Council's members through their home page link on Council's website based on EEPC India's brand image a Government Sponsored Organisation and India's first ISO-9001 Council.
3. Your company may get on-line business enquiries of overseas buyers generated through Council's website.

Apart from hosting of home pages of exporters, the website also carries various useful information like Public Notices, Circulars & Notifications issued by DGFT, Customs and Central Excise, etc.

If interested, please fill-up the enclosed Application Form duly signed and stamped (given overleaf) along with Terms & Conditions duly signed and stamped (given below) as well as DD/Cheque of Rs. 2,500/- for members and Rs. 4,000/- for non-members and text matter of your web page (duly signed and stamped).

Format : EEPC/WEB PAGE APPL./04

Terms & Conditions for Hyperlinking of Home Page/Establishing Link through EEPCNet

1. This facility shall be made available to the community of engineering exporters from India.
2. Any engineering firm can apply to the Council to avail of this service by making an application on this Form.
3. **The prescribed service charges for the period 01.04.2010 - 31.03.2011 (i.e. Rs. 2,500/- p.a. for EEPC India members or Rs. 4,000/- p.a. for non-members) shall be applicable at the beginning of the Financial Year 2010-11.**
4. **The payment should be made by Demand Draft/Cheque in favour of 'EEPC INDIA' payable at Kolkata.**
5. For the above period, the charges shall be for the full year irrespective of the date of enrolment.
6. Before providing the Hyperlinking a representative from Council's Head Office shall visit the website of the exporting firm to find out if the contents are suitable.
7. Connections will be provided only if the contents of the home page of the exporting firm is found suitable.
8. If the subscriber desires to change the contents of the website at any time during the service period, she/he shall intimate the Council beforehand, in writing.
9. If the subscriber desires to discontinue the service at any time during the year, no pro-rata refund shall be made by the Council.
10. While the Council shall provide the service to the subscriber on a continuous basis; in the eventuality of any technical snag/telecommunication failures, etc. resulting in disruption of service, the Council shall not be responsible to provide any compensation whatsoever.
11. **Disclaimer :** The Council may, at its discretion, display Disclaimer clauses on the net wherever felt necessary. The Council shall not be responsible for, and/or holds no guarantee over the accuracy, reliability, completeness or the usefulness of the data included in the home page of the member hosted on EEPCNet.
