

EEPC India invites Participation for India Pavilion at PAACE Automechanika, Mexico (15 - 17 July, 2009)

EEPC INDIA is organizing an India Pavilion at PAACE Automechanika Mexico 2009 which is one of the best automotive shows in Mexico and Latin American countries. This show will be held in conjunction with the International Week of the Automotive Industry and with the support of important industry associations, PAACE Automechanika Mexico has become a growing platform for automotive business in this region.

531 exhibitors from 15 countries participated in the year 2008. PAACE Automechanika Mexico is the ultimate platform for displaying domestic and international products to Mexico and Central America's top automotive buyers and key industry players. In addition to the thousands of products, services and resources available on the exhibit hall floor, PAACE Automechanika Mexico offers valuable education and training, unmatched business solutions, exciting networking events and more.

The fair has proven a record to meet suppliers, manufacturers face to face, see the latest technology trends and identify the future markets conditions. The fair witnessed 18,317 quality visitors in 2008 from 33 countries. APRA - Automotive Parts Remanufacturers Association, MEMA - Motor Equipment Manufacturers Association, SEMA - Specialty Equipment Market Association, and INA – The National Institute of Auto Parts (Instituto Nacional de Autopartes) are some of the key supporters for PAACE Automechanika Mexico.

Automotive Market in Mexico

The Mexican automotive industry is one of the fastest growing sectors in Mexico. Due to its geographic location and large population of over 100 million people, Mexico is well known for its outstanding opportunities in the automotive industry. Mexico is the world's 11th largest automotive producer and is forecasted to rank 5th by 2011.

The auto parts and suppliers industry in Mexico generates approximately 7.5% of the country's GDP. Mexico's automotive production has grown at an astounding rate – approximately ten percent per year over the past three years.

As the Mexican automotive industry experiences tremendous growth, so do the opportunities that exist in the market. Consistent increases in vehicle circulation, parts and accessories imports make Mexico a very lucrative market for business.

Mexico is the 10th largest light vehicle producer in the world and the single largest exporter of auto parts to the US, surpassing Canada and Japan. 90 of the top 100 global auto parts manufacturers have established manufacturing operations in Mexico. From August 2005 to January 2008, 1,776,284 vehicles between 11 and 15 years old and 1,073,654 vehicles 10 years old were imported into Mexico. Mexico is one of the few countries with the largest number of brands participating in its market.

India's Exports to Mexico

In 2007-08, India exported nearly USD 600 million worth of transport equipment, including components, to Mexico. Transport equipment accounted for 16% of total exports from India to Mexico.

Five years back, this figure in 2003-04 was less than USD 300 million. The share of transport equipment in total Indian exports to Mexico was also at a much lower level, only 11%.

This indicates the fast pace at which exports of transport equipment to Mexico from India is growing.

Focus Products
