About the Exhibition

Korea Metal Week (KMW) is one of South Korea's leading industrial manufacturing exhibitions covering the entire metal-processing and engineering value chain. The event serves as a major platform for manufacturers, buyers, distributors, technology providers, and industry professionals from Asia and across the world. It is particularly relevant for Indian engineering exporters seeking opportunities in automotive components, industrial machinery, metal processing, fasteners, foundry products, forging, welding, and advanced manufacturing technologies.

The 2025 edition of KMW attracted around 450 exhibitors from 28 countries and regions and showcased cutting-edge technologies in fasteners, foundry, forging, automotive components, welding, automation and smart manufacturing. The forthcoming 2026 edition of KMW offers an excellent opportunity for Indian engineering exporters to explore business partnerships and strengthen their presence in the South Korean and East Asian markets.

Highlights of Korea Metal Week 2025:

- 446 exhibiting companies
- Exhibition area: Approx. 21,500 sq. metres
- Strong international presence from Asia, Europe and other manufacturing regions.
- Nearly 10,000 professional visitors on the opening day alone.

Why Participate?

- Establish business contacts with Korean manufacturers, importers, distributors and OEMs.
- Explore sourcing and technology partnerships.
- Access South Korea's advanced manufacturing ecosystem.
- Identify opportunities in automotive, shipbuilding, machinery, electronics and heavy engineering sectors.
- Showcase Indian engineering products to buyers from Korea and neighbouring East Asian markets.
- Understand emerging trends in smart manufacturing, automation and Industry 4.0 technologies.
