## India-Bangladesh relations

India was the first country to establish diplomatic relations with Bangladesh by recognizing it as a separate and independent state immediately after the independence of the later in December 1971. Being an integral part of India till 1947, Bangladesh shares a common history with India and the link also extends to areas like heritage, culture, people and economy. In the last four and a half decades since the independence of Bangladesh, the two countries have built a comprehensive institutional framework to promote bilateral cooperation in all areas that has resulted in an ever strengthening relationship.

## Economy of Bangladesh

The economy of Bangladesh has undergone a major transformation over the past two decades to achieve over 6 percent annual average growth in real GDP accompanied by a sustained increase in per capita income.

The size of the Bangladesh economy is USD628.4 billion as on 2016 in terms of purchasing power parity (PPP) which is the 34th largest in the world. Real GDP has grown by 6.9 percent in 2016 over the year which has been higher than expectation. The growth was primarily attributed to revived exports and sustained domestic consumption.

## India-Bangladesh trade and investment relations

India and Bangladesh share close cultural, economic and multidimensional relations. Over the years, the countries have set up close bilateral cooperation backed with the highest level political exchanges to promote trade and commerce. Over the last 5 years, India - Bangladesh bilateral trade has increased consistently from 4.3 billion US\$ in year 2011-12 to 6.7 billion US\$ in year 2015-16. The 2 countries have set target to increase bilateral trade to US\$ 10 billion by the year 2018 through ports.

Keeping in view the immense potential offered by the Bangladesh economy, EEPC India is geared to organize its maiden exhibition in Dhaka, Bangladesh from 2 - 4 November 2017.
