India-Bangladesh trade and investment

India was the first country to establish diplomatic relations with Bangladesh by recognizing it as a separate and independent state immediately after the independence of the later in December 1971. Being an integral part of India till 1947, Bangladesh shares a common history with India and the link also extends to areas like heritage, culture, people and economy. In the last four and a half decades since the independence of Bangladesh, the two countries have built a comprehensive institutional framework to promote bilateral cooperation in all areas that has resulted in an ever strengthening relationship.

India and Bangladesh share close cultural, economic and multidimensional relations. Over the years, the countries have set up close bilateral cooperation backed with the highest level political exchanges to promote trade and commerce. Over the last 5 years, India - Bangladesh bilateral trade has increased consistently from 4.3 billion US$ in year 2011-12 to 9.2 billion US$ in year 2017-18. During the same time India's engineering trade with Bangladesh grew to USD 2.7 billion from USD 0.80 billion with the trade balance in favour of India. Automobile, electrical machinery and iron steel remained top three engineering items of export from India to Bangladesh in 2017-18.

Keeping in view the immense potential offered by the Bangladesh economy and on the interest shown by our industry partners, EEPC India is geared to organize the 2nd edition of INDEE Bangladesh in Dhaka from 22 - 24 January 2020.
**Economy of Bangladesh**

The economy of Bangladesh has undergone a major transformation over the past two decades to achieve over 6 percent annual average growth in real GDP accompanied by a sustained increase in per capita income.

The size of the Bangladesh economy is USD 690.3 billion as in 2017 in terms of purchasing power party (PPP). The country remained one of the fastest growing economies in the world registering a real GDP growth of 7.4% in 2017. The growth was primarily attributed to revived exports and sustained domestic consumption.
