

EEPCINDIA:K:AP:SEMINAR:2019:

04 December 2019

To
All Members of EEPC India,
Eastern Region

Kind Attn.:

Dear Sir/Madam,

Training Session on E-Invoicing in GST System & Session on ERP & Digital Transformation

Wednesday, 18 December, 2019: 4.00 PM: Conference Hall, EEPC India, Kolkata

We are pleased to inform you that EEPC India, Eastern Region is organising a **Training Session on E-Invoicing in GST System & Session on ERP & Digital Transformation on 18th December, 2019 at 4.00 pm** at the Premises of EEPC India, Kolkata, followed by Hi-Tea. The registration will start at 3.30 p.m.

Training Session on E-Invoicing in GST System:

You may be aware that the GST Council has approved introduction of 'E-invoicing' or 'electronic invoicing' in a phased manner for reporting of business to business (B2B) invoices to GST System, starting from 1st January 2020 on voluntary basis. E Invoicing would be a significant change in GST. E-invoicing is a system in which B2B invoices are authenticated electronically. It will enable e-invoices generated by one software to be read by any other software.

The agenda of the session would be as follows:

1. Decoding the concept note
2. Explaining what an e-invoice is, how it operates and key areas of consideration/open points for businesses

The experts from Ernst & Young will share insights on the e-invoicing related development, which requires the companies to align their data model/ data structure with the e-invoice standards and incorporate relevant changes in the invoice template.

Session on ERP & Digital Transformation:

The digital platform is a key enabler for the Intelligent Enterprise. The digital platform consists of the SAP HANA In-Memory Platform, with the combination of the SAP Cloud Platform. For SMB market, SAP Business One leverages SAP HANA allowing companies to act with agility and to fulfill the digital transformation expectation. The advantages offered by SAP Business One ERP solution include the following benefits and features:

- **Automatic Alerts** eliminate the need to query the system for information by delivering reports to the appropriate recipients at predetermined times.
- **Accounting and Financial** aid in managing the general ledger, budgets, journals, and accounts payables and receivables.
- **Customer Relationship Management (CRM) and Sales** support the entire sales process from the first contact to post-closing by managing customer data.
- **Purchasing and Operations** efficiently and effectively help to direct the entire procurement process.
- **Inventory and Distribution** aid in managing, tracking, and recording inventory levels across multiple warehouses and locations.
- **Materials Requirements Planning (MRP)** supports efficient purchasing and production planning via powerful material management tools.
- **Batch Traceability** optimizes stock inventory by helping to maintain ideal product levels.
- **Stock and Warehouse Management** aids in managing stock and warehouse data by tracking and reporting stock levels, price agreements, item management, and transfers between warehouses.
- **Availability to Promise** provides effective supply chain management by offering the ability to quote available quantities and delivery dates to customers with accuracy.
- **Bills of Materials (BOM)** supports an unlimited number of BOM levels while providing a single production view for improved management of entire product structures.

The session will be facilitated by Lee & Nee Softwares (Exports) Ltd. It is an IT solutions company based in Kolkata for last 30 years. They are the authorized partner for SAP ERP Solution in India and have got an opportunity to implement this ERP Solution in Engineering Industry. They have already implemented this solution in Gem Allied Industries Pvt Ltd, Vikram India and are in the process of implementation in New Allenberry Works.
