About the Exhibition
The International Fastener Expo - the Largest B2B of Industrial Fasteners and Tooling & Machinery in North America since 1981!

The International Fastener Expo is the North American region’s largest B2B event of its kind for the fastener and machinery & tooling industries. The expo annually hosts suppliers & vendors that cover every level throughout the manufacturing process and throughout the distribution chain. It is more than just fasteners though – attendees to the show can also find several industrial-related products at IFE. Each year, thousands of attendees travel to Las Vegas, Nevada to network with and buy from over 650 leading international suppliers.

Highlights of the Fair
Topnotch exhibitors showcasing every type of fasteners for the industrial, construction, aerospace, and automotive industry; electronic fasteners, specialty tooling products, special application fasteners, tooling and machinery, hand tools, power tools, service solutions, and much more. From industrial to construction, electronic to automotive and aerospace, this is the trade show where all types of distributors come to network and see customers, build new relationships, and find new products.

Why Exhibit?
The average attendee spends $1.9 million after attending the show. 88% of the attendees are based in the U.S of which more than 61% are distributors of fasteners and/or distributors of other related products. 66% of attendees say they attend the show to maintain & build relationships, network, see existing suppliers, find new products and suppliers. It is no wonder that 80% of our exhibitors and attendees say that the show is a “Must Exhibit” event.
Networking Opportunities

The show offers a platform for networking through a range of different events, both on and off the show floor. In 2019, over 900 distributors, importers, manufacturers, and sales reps attended the Welcome Reception on day 1. In addition, over 500 people joined us for NIGHTCAP at Eye candy Sound Lounge on days 2 and 3. The highlight of the show was IFE’s inaugural golf tournament.

Economic scenario of USA

USA is a highly developed country with a market economy and has the world’s largest nominal GDP and net wealth. It has the second-largest by purchasing power parity (PPP) behind China. It had the world’s eighth-highest per capita GDP (nominal) and the ninth-highest per capita GDP (PPP) in 2022. The United States has the most technologically powerful and innovative economy in the world. The U.S. economy is dominated by services-oriented companies in areas such as technology, financial services, healthcare and retail. Large U.S. corporations also play a major role on the global stage, with more than a fifth of companies on the Fortune Global 500 coming from the United States.

Glimpse of Engineering trade: India & USA

Engineering trade accounts for around 23% of bilateral merchandise trade between India and USA. India’s engineering exports to USA witnessed a growth of 47% and engineering imports registered a growth of 50% during 2021-22 compared to same period last year. USA is the top most exporting destination for India’s engineering products during 2021-22 vis-à-vis 2020-21 registering a growth of 53%. On the other hand, North America region ranks second in terms of highest shipment of engineering products from India during 2021-22 over 2020-21 with a share of 19% percent of total engineering exports. Major engineering products exported to USA includes electronic machinery and equipment, products of iron and steel, auto components/part, industrial machinery for dairy, aluminium and products, iron and steel and products etc.

Given the profile of fasteners, India’s globally exports more than 28% of fastener to USA, 11% to Netherland, 10.4% to Germany, 7.5% UK, 5.2% to UAE and remaining 40% to other countries during 2021. While India ranks as the seventh destination in terms of USA’s global import of fasteners and the top importers being Taiwan and China constituting 50% share of USA imports, Japan constituting a share of 8.3% and Canada constituting 5.2% share respectively during 2021.

India - USA Bilateral Trade relation

India-U.S. bilateral relations have developed into a "global strategic partnership", based on shared democratic values and increasing convergence of interests on bilateral, regional and global issues. The rapidly expanding trade and commercial linkages form an important component of the multi-faceted partnership between India and the United States. The U.S. is India’s topmost trading partner both in terms of merchandised goods and engineering goods as well during 2021 (Trade Map). The two countries have a total bilateral trade of around USD 119.4 billion during 2021-22.

Opportunity for Indian Engineering Industry in USA

Engineering products like Electrical Machinery and Equipment, Industrial Machinery, Ferrous and Non Ferrous Metal Products, Automobile and auto components are the major product groups in the global import basket of USA. Therefore, Indian engineering producers and traders have ample scope to explore the USA market as India exports products of all these segments in a good quantity. Moreover USA is the top most destination for Indian engineering products. With the advent of International Fasteners Expo 2022 (Oct 17-19th 2022), one of the largest B2B expo for fasteners, tooling, and machinery in North America, various manufacturers, distributors of the engineering fraternity across the globe are going to showcase their products maintaining proper build-in relationship and networking, identifying existing and new products and suppliers. The event will play a major role for Indian fastener manufacturers and distributors, opening doors to major growth opportunities in this industry.
